

Philips TwinPlay Dual-Screen In-Car Display for iPhone®/iPod®/iPad® PV7002i/PV9002i

Turn your car into a mobile home theater with the Philips TwinPlay Dual Screen In-Car Display, the only in-car entertainment system that allows you to share videos, music and photos from your iPhone®, iPad® or iPod touch®. Access your full iTunes® library or stream movies, videos and music directly from providers such as Netflix, YouTube and Pandora. Whether you're heading across town or taking a cross-country tour, in-car entertainment has never been easier or more enjoyable!

Easily mount the system's dual widescreen LCD panels to the back of the front headrests. Then, plug in an iPhone, iPad or iPod touch via a power/video cable to instantly create an engaging, effortless incar entertainment experience. Conveniently manage all of your entertainment from the front of the car while your back seat riders enjoy the show. Simply connect your device via the integrated cup holder dock which also charges your device while you ride. The display comes complete with 2 sets of mounting straps for easy in-car use, a single cable for both video and power, and a car adaptor.

Play your movies, music and photos on the go

- Stream and share videos, photo and music from your iPhone/iPad/iPod touch on two lightweight 7" or 9" widescreen LCD displays
- Built-in stereo speakers provide a rich sound experience that all passengers can enjoy
- Integrated cup holder dock connects and charges your device on the go and offers easy cable management when not in use

Extra touches for your convenience

- All-in-one multi-purpose power, charge and video cable offers fast set-up without clutter
- Easy-mountable design includes two sets of mounting straps
- Answer your incoming calls and resume your movie right where you left off

Available: April 2012

Suggested Retail Price: \$169.99 PV7002i (7"), \$199.99 for PV9002i (9")
