## Discovery IQ™ Wall Oven Specifications

**Operating System:** Android 4.0.3

### Display

GPU Type: PowerVR SGX 540

Screen Type: 7 inch LCD Capacitive Multi-Touch Screen

Max Resolution: 800\*480

### Hardware

CPU Type: Samsung S5PV210 1GHz

Core Type: ARM Cortex-A8 ARMv7 Processor rev 2(V7I)

RAM/Technology: 512 MB DDR2

Flash Memory: 16 GB NAND FAST FLASH

### Storage

Hard Drive Expansion: 32GB Max

### Networking

Wireless Connection: WIFI (Integrated)

## Control Panel

**Quick Start Guide:** Adjust the temperature and cook time of each oven manually.

**Guided Cooking:** A selection guide designed to walk you through preset cooking functions.

**My Modes:** Allows the user to program and store personal cooking presets, including recipes.

## Oven Features

**4.8 cubic foot oven cell capacity** to prepare large poultry or multi-rack cooking.

**Exclusive Four-Part Pure Convection™ System** which reduces cooking time, provides superior heat distribution and eliminates flavor transfer.

**GreenClean™ Steam Technology** which cleans light build-up in 30 minutes without the use of high heat or harsh chemicals.

**GlideRacks™** equipped with a convenient easy-pull handle which allow the home chef to move heavier dishes in and out of the oven more easily.
