(1) Amounts include the impact of acquisition and divestiture-related costs, restructuring costs and certain other items. See accompanying tables for details.

(2) Represents separation and other related costs associated with restructuring activities under the company's formal restructuring programs.

(3) Reflects the performance of the company's joint ventures and other equity method affiliates, including the Sanofi Pasteur MSD partnership, as well as the AstraZeneca LP partnership until its termination on June 30, 2014.

(4) Other (income) expense, net in the third quarter and first nine months of 2014 includes a gain of \$396 million on the divestiture of certain ophthalmic products in several international markets, partially offset by a \$93 million goodwill impairment charge related to the company's joint venture with Supera Farma Laboratorios S.A. Other (income) expense, net in the first nine months of 2014 also includes a gain of \$741 million related to AstraZeneca's option exercise and net gains of \$168 million related to the divestiture of the company's Sirna Therapeutics, Inc. subsidiary. Other (income) expense, net in the first nine months of 2013 reflects approximately \$140 million of exchange losses as a result of a Venezuelan currency devaluation.

(5) The effective income tax rate for the first nine months of 2014 reflects a net benefit of \$517 million recorded in connection with AstraZeneca's option exercise, as well as a benefit of approximately \$300 million associated with a capital loss generated in the first quarter of 2014.

The effective income tax rate for the first nine months of 2013 reflects net benefits from the settlements of certain federal income tax issues, reductions in tax reserves upon expiration of applicable statute of limitations and the favorable impact of tax legislation enacted in the first quarter of 2013.

Merck is providing non-GAAP information that excludes certain items because of the nature of these items and the impact they have on the analysis of underlying business performance and trends. Management believes that providing this information enhances investors' understanding of the company's performance. This information should be considered in addition to, but not in lieu of, information prepared in accordance with GAAP.

(1) Amounts included in materials and production costs reflect expenses of \$1.0 billion for the amortization of intangible assets recognized as a result of mergers and acquisitions, as well as \$412 million of impairment charges on product intangibles. Amounts included in marketing and administrative expenses reflect merger integration costs, as well as transaction and certain other costs related to business acquisitions and divestitures. Amounts included in research and development expenses represent in-process research and development ("IPR&D") impairment charges primarily related to the company's joint venture with Supera. Amount included in other (income) expense, net represents a goodwill impairment charge related to the joint venture with Supera. Amount included in net (loss) income attributable to non-controlling interests represents the portion of intangible asset and goodwill impairment charges related to the joint venture with Supera that are attributable to non-controlling interests.

(2) Amounts primarily include employee separation costs and accelerated depreciation associated with facilities to be closed or divested related to actions under the company's formal restructuring programs.

(3) Amount included in marketing and administrative expenses represents an additional year of expense related to the healthcare reform fee in accordance with final regulations issued in the third quarter by the Internal Revenue Service. Included in other (income) expense, net is a \$396 million gain on the divestiture of certain ophthalmic products in several international markets.

(4) Represents the estimated tax impact on the reconciling items.

⁽¹⁾ Only select products are shown.

⁽²⁾ Includes Pharmaceutical products not individually shown above. Other Vaccines sales included in Other Pharmaceutical were \$98 million, \$76 million and \$116 million for the first, second and third quarters of 2014, respectively. Other Vaccines sales included in Other Pharmaceutical were \$53 million, \$86 million, \$127 million, and \$101 million for the first, second, third, and fourth quarters of 2013, respectively.

⁽³⁾ The decrease in Consumer Care sales in the second quarter and full year of 2013 resulted from the termination in China of distribution arrangements and a reversal of sales previously made to those distributors, together with associated termination costs.

⁽⁴⁾ Other revenues are comprised primarily of alliance revenue, third-party manufacturing sales and miscellaneous corporate revenues, including revenue hedging activities. On October 1, 2013, the company divested a substantial portion of its third-party manufacturing sales. On June 30, 2014, AstraZeneca exercised its option to buy Merck's interest in a subsidiary and through it, Merck's interest in Nexium and Prilosec. As a result, the company no longer records supply sales for these products. Other revenues in the first quarter and September YTD 2014 include \$232 million of revenue recognized in connection with the sale of U.S. Saphris rights. In addition, Other revenues in the fourth quarter and full year of 2013 reflect \$50 million of revenue for the out-license of a pipeline compound.
