**Carolyn J. Wukitch**  
Senior Vice President & General Manager, Network and Financial Management  
McKesson Health Solutions

Carolyn Wukitch is responsible for the financial performance, strategic direction, and management of McKesson Health Solution's (MHS) software solution portfolio for network management and payment management products.

Under her leadership, MHS's network and payment management solutions have expanded their market presence to where they are now accepted by 90% of the top 25 health plans in the U.S., covering approximately 160 million lives. Ms. Wukitch implemented a strong portfolio management process that fostered highly effective cross-functional planning and organizational readiness for bringing products to market. She also oversaw the creation of an innovative solution suite that supports the industry's transition to value-based reimbursement, as part of a 2012 acquisition and integration of Portico Systems.

Earlier, Ms. Wukitch held a variety of product management and customer service positions at McKesson Health Solutions. She began her career at Geisinger Medical Center after earning her BS at the University of Pittsburgh.
