Marcy Tatsch
Vice President and General Manager, Reimbursement Solutions
RelayHealth Financial

Marcy Tatsch leads RelayHealth Financial's provider claims management solutions business, serving both acute and non-acute provider markets. The flagship product, RelayAssurance Plus™, is an analytics-driven claims and remittance management solution designed to reduce payment obstacles and optimize staff productivity through exception-based, just-in-time workflow. RelayAssurance Plus works efficiently with any EMR technology to provide integrated clinical and financial workflows that help accelerate cash flow, improve resource utilization, and reduce costs.

Prior to joining RelayHealth Financial, Marcy held leadership positions in several client facing and product management organizations within McKesson, including the roles of VP of Operations for RelayHealth Pharmacy and VP of Product Management for McKesson's EMR software business.
