TOP 10 STATES

JOBS

M Million | B Billion

COMP & BENEFITS

Multiplier effects arise from Koch companies' spending (indirect impacts) and from employees' payroll expenditures (induced impacts).

Data source: Harrah Analytics, data as of December 31, 2015. Direct jobs include those at Koch companies in 50 U.S. states and the District of Columbia. Total jobs were calculated using RIMS II multipliers produced by the U.S. Department of Commerce, Bureau of Economic Analysis. Shareholders and executives of Koch companies are not included in jobs and compensation and benefits totals.
