(1) Total deposit costs from continuing operations may be calculated by dividing total interest expense on deposits by the sum of interest-bearing deposits and non-interest bearing deposits. The rates for total deposit costs from continuing operations equal 0.12\% for both quarters ended September 30, 2016 and June 30, 2016 and $0.11 \%$ for quarter ended March 31, 2016.

## Financial Supplement to First Quarter 2017 Earnings Release

## Pre-Tax Pre-Provision Income ("PPI") and Adjusted PPI (non-GAAP)

The Pre-Tax Pre-Provision Income table below presents computations of pre-tax pre-provision income from continuing operations excluding certain adjustments (non-GAAP). Regions believes that the presentation of PPI and the exclusion of certain items from PPI provides a meaningful base for period-to-period comparisons, which management believes will assist investors in analyzing the operating results of the Company and predicting future performance. These non-GAAP financial measures are also used by management to assess the performance of Regions' business. It is possible that the activities related to the adjustments may recur; however, management does not consider the activities related to the adjustments to be indications of ongoing operations. Regions believes that presentation of these non-GAAP financial measures will permit investors to assess the performance of the Company on the same basis as that applied by management. Non-GAAP financial measures have inherent limitations, are not required to be uniformly applied and are not audited. Although these non-GAAP financial measures are frequently used by stakeholders in the evaluation of a company, they have limitations as analytical tools, and should not be considered in isolation, or as a substitute for analyses of results as reported under GAAP. In particular, a measure of income that excludes certain adjustments does not represent the amount that effectively accrues directly to stockholders.

NM - Not Meaningful
(1) Gain on sale of affordable housing residential mortgage loans in the fourth quarter of 2016 was due to the decision to sell approximately $\$ 171$ million of loans to Freddie Mac.

Approximately $\$ 91$ million were sold with recourse, resulting in a deferred gain of $\$ 5$ million, which will be evaluated when the recourse expires during the second quarter of 2017.
(2) Insurance proceeds recognized in the third quarter of 2016 are related to the previously disclosed settlement with the Department of Housing and Urban Development. Insurance proceeds recognized in the other periods presented are related to the settlement of the previously disclosed 2010 class-action lawsuit.
(3) The impact of the leveraged lease termination gains, net in the third quarter of 2016 was fully offset by increased tax expense.
(4) Regions recorded $\$ 3$ million of contingent legal and regulatory accruals during the second quarter of 2016.

## NM - Not Meaningful

(1) Capital markets fee income and other primarily relates to capital raising activities that includes securities underwriting and placement, loan syndication and placement, as well as foreign exchange, derivative and advisory services.
(2) Total mortgage production represents production during the period, including amounts sold into the secondary market as well as amounts retained in Regions' residential first mortgage loan portfolio.
(3) Total Wealth Management income presented above does not include the portion of service charges on deposit accounts and similar smaller dollar amounts that are also attributable to the Wealth Management segment.

## Selected Non-Interest Income Variance Analysis

- Other non-interest income decreased in the first quarter of 2017 compared to the fourth quarter of 2016, primarily due to the gain on the sale of affordable housing residential mortgage loans in the fourth quarter of 2016.
- Mortgage income decreased in the first quarter of 2017 compared to the fourth quarter of 2016, driven by lower production related to seasonality and rising interest rates.
- Wealth management income increased in the first quarter of 2017 compared to the fourth quarter of 2016, primarily due to seasonal increases in both insurance and investment services income.

NM - Not Meaningful

## Selected Non-Interest Expense Variance Analysis

- Salaries and employee benefits increased in the first quarter of 2017 compared to the fourth quarter of 2016, primarily due to a seasonal increase in payroll taxes partially offset by lower production-based incentives.
- Occupancy expense decreased in the first quarter of 2017 compared to the fourth quarter of 2016, primarily due to the fourth quarter including costs for flood damaged branches while the first quarter includes the benefit from insurance recoveries related to branch damages in prior periods.
- Professional, legal and regulatory expenses decreased in the first quarter of 2017 compared to the fourth quarter of 2016, primarily due to lower litigationrelated costs.
- Visa class B share expense is associated with shares sold in a prior year. The Visa class B shares have restrictions tied to finalization of certain covered litigation. Changes in the status of that litigation drove the increased expense for the first quarter of 2017.

## Financial Supplement to First Quarter 2017 Earnings Release

## Reconciliation to GAAP Financial Measures

## Adjusted Efficiency Ratios, Adjusted Fee Income Ratios, Adjusted Non-Interest Income/Expense, Adjusted Operating Leverage Ratios, and Return Ratios

The table below presents computations of the efficiency ratio (non-GAAP), which is a measure of productivity, generally calculated as non-interest expense divided by total revenue. The
 these measures provide meaningful information to investors. Non-interest expense (GAAP) is presented excluding certain adjustments to arrive at adjusted non-interest expense (nonGAAP), which is the numerator for the efficiency ratio. Non-interest income (GAAP) is presented excluding certain adjustments to arrive at adjusted non-interest income (non-GAAP), which is the numerator for the fee income ratio. Net interest income and other financing income on a taxable-equivalent basis and non-interest income are added together to arrive at total

 equivalent basis (non-GAAP) less the percentage change in adjusted non-interest expense (non-GAAP). Regions believes that presentation of these non-GAAP financial measures will permit investors to assess the performance of the Company on the same basis as that applied by management.

 and banking regulators have assessed Regions' capital adequacy using the tangible common stockholders' equity measure. Because tangible common stockholders' equity is not formally

 is useful to provide investors the ability to assess Regions' capital adequacy on this same basis.

## Financial Supplement to First Quarter 2017 Earnings Release

## Statements of Discontinued Operations (unaudited)

On January 11, 2012, Regions entered into a stock purchase agreement to sell Morgan Keegan and Company, Inc. and related affiliates to Raymond James Financial Inc. The sale was closed on April 2, 2012. Regions Investment Management, Inc. (formerly known as Morgan Asset Management, Inc.) and Regions Trust were not included in the sale. In connection with the agreement, the results of the entities sold are reported as discontinued operations. The following tables represents the unaudited condensed results for discontinued operations.

## Adjusted Non-Accrual Loans and Select Ratios (non-GAAP)

The table below presents computations of the adjusted allowance for loan losses to non-performing loans, excluding loans held for sale ratio (non-GAAP), generally calculated as adjusted allowance for loan losses divided by adjusted total non-accrual loans, excluding loans held for sale. The allowance for loan losses (GAAP) is presented excluding the portion of the allowance related to direct energy loans to arrive at the adjusted allowance for loan losses (non-GAAP). Total non-accrual loans (GAAP) is presented excluding direct energy nonaccrual loans to arrive at adjusted total non-accrual loans, excluding loans held for sale (non-GAAP), which is the denominator for the allowance for loan losses to non-accrual loans ratio. Management believes that excluding the portion of the allowance for loan losses related to direct energy loans and the direct energy non-accrual loans will assist investors in analyzing the Company's credit quality performance absent the volatility that has been experienced by energy businesses. Non-GAAP financial measures have inherent limitations, are not required to be uniformly applied, are not audited, and should not be considered in isolation, or as a substitute for analyses of results as reported under GAAP.

(3) The balance of Regions' home equity portfolio was $\$ 10,533$ million at March 31,2017 consisting of $\$ 7,016$ million of home equity lines of credit and $\$ 3,517$ million of closed-end home equity loans. The home equity lines of credit presented in the table above are based on maturity date for lines with a balloon payment and draw period expiration date for lines that convert to a repayment period. The closed-end loans were primarily originated as amortizing loans, and were therefore excluded from the table above

Regions Financial Corporation and Subsidiaries

## Financial Supplement to First Quarter 2017 Earnings Release

## Reconciliation to GAAP Financial Measures

## Tangible Common Ratios and Capital

The following tables provide the calculation of the end of period "tangible common stockholders' equity" and "tangible common book value per share" ratios, a reconciliation of stockholders' equity (GAAP) to tangible common stockholders' equity (non-GAAP), and the fully phased-in pro-forma of Basel III common equity Tier 1 (non-GAAP).

The calculation of the fully phased-in pro-forma "Common equity Tier 1" (CET1) is based on Regions' understanding of the Final Basel III requirements. For Regions, the Basel III framework became effective on a phased-in approach starting in 2015 with full implementation beginning in 2019. The calculation provided below includes estimated pro-forma amounts for the ratio on a fully phased-in basis. Regions' current understanding of the final framework includes certain assumptions, including the Company's interpretation of the requirements, and informal feedback received through the regulatory process. Regions' understanding of the framework is evolving and will likely change as analyses and discussions with regulators continue. Because Regions is not currently subject to the fully phased-in capital rules, this pro-forma measure is considered to be a non-GAAP financial measure, and other entities may calculate it differently from Regions' disclosed calculation.

A company's regulatory capital is often expressed as a percentage of risk-weighted assets. Under the risk-based capital framework, a company's balance sheet assets and credit equivalent amounts of off-balance sheet items are assigned to broad risk categories. The aggregated dollar amount in each category is then multiplied by the prescribed risk-weighted percentage. The resulting weighted values from each of the categories are added together and this sum is the risk-weighted assets total that, as adjusted, comprises the denominator of certain riskbased capital ratios. Common equity Tier 1 capital is then divided by this denominator (risk-weighted assets) to determine the common equity Tier 1 capital ratio. The amounts disclosed as risk-weighted assets are calculated consistent with banking regulatory requirements on a fully phased-in basis.

Since analysts and banking regulators may assess Regions' capital adequacy using tangible common stockholders' equity and the fully phased-in Basel III framework, we believe that it is useful to provide investors the ability to assess Regions' capital adequacy on these same bases.

## Financial Supplement to First Quarter 2017 Earnings Release

## Forward-Looking Statements

This release may include forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995, which reflect Regions' current views with respect to future events and financial performance. Forward-looking statements are not based on historical information, but rather are related to future operations, strategies, financial results or other developments. Forward-looking statements are based on management's expectations as well as certain assumptions and estimates made by, and information available to, management at the time the statements are made. Those statements are based on general assumptions and are subject to various risks, uncertainties and other factors that may cause actual results to differ materially from the views, beliefs and projections expressed in such statements. These risks, uncertainties and other factors include, but are not limited to, those described below:

- Current and future economic and market conditions in the United States generally or in the communities we serve, including the effects of declines in property values, unemployment rates and potential reductions of economic growth, which may adversely affect our lending and other businesses and our financial results and conditions.
- Possible changes in trade, monetary and fiscal policies of, and other activities undertaken by, governments, agencies, central banks and similar organizations, which could have a material adverse effect on our earnings.
- The effects of a possible downgrade in the U.S. government's sovereign credit rating or outlook, which could result in risks to us and general economic conditions that we are not able to predict.
- Possible changes in market interest rates or capital markets could adversely affect our revenue and expense, the value of assets and obligations, and the availability and cost of capital and liquidity.
- Any impairment of our goodwill or other intangibles, or any adjustment of valuation allowances on our deferred tax assets due to adverse changes in the economic environment, declining operations of the reporting unit, or other factors.
- Possible changes in the creditworthiness of customers and the possible impairment of the collectability of loans and leases, including operating leases.
- Changes in the speed of loan prepayments, loan origination and sale volumes, charge-offs, loan loss provisions or actual loan losses where our allowance for loan losses may not be adequate to cover our eventual losses.
- Possible acceleration of prepayments on mortgage-backed securities due to low interest rates, and the related acceleration of premium amortization on those securities.
- Our ability to effectively compete with other financial services companies, some of whom possess greater financial resources than we do and are subject to different regulatory standards than we are.
- Loss of customer checking and savings account deposits as customers pursue other, higher-yield investments, which could increase our funding costs.
- Our inability to develop and gain acceptance from current and prospective customers for new products and services in a timely manner could have a negative impact on our revenue.
- The effects of any developments, changes or actions relating to any litigation or regulatory proceedings brought against us or any of our subsidiaries.
- Changes in laws and regulations affecting our businesses, such as the Dodd-Frank Act and other legislation and regulations relating to bank products and services, as well as changes in the enforcement and interpretation of such laws and regulations by applicable governmental and self-regulatory agencies, which could require us to change certain business practices, increase compliance risk, reduce our revenue, impose additional costs on us, or otherwise negatively affect our businesses.
- Our ability to obtain a regulatory non-objection (as part of the CCAR process or otherwise) to take certain capital actions, including paying dividends and any plans to increase common stock dividends, repurchase common stock under current or future programs, or redeem preferred stock or other regulatory capital instruments, may impact our ability to return capital to stockholders and market perceptions of us.
- Our ability to comply with stress testing and capital planning requirements (as part of the CCAR process or otherwise) may continue to require a significant investment of our managerial resources due to the importance and intensity of such tests and requirements.
- Our ability to comply with applicable capital and liquidity requirements (including, among other things, the Basel III capital standards and the LCR rule), including our ability to generate capital internally or raise capital on favorable terms, and if we fail to meet requirements, our financial condition could be negatively impacted.
- The Basel III framework calls for additional risk-based capital surcharges for globally systemically important banks. Although we are not subject to such surcharges, it is possible that in the future we may become subject to similar surcharges.
- The costs, including possibly incurring fines, penalties, or other negative effects (including reputational harm) of any adverse judicial, administrative, or arbitral rulings or proceedings, regulatory enforcement actions, or other legal actions to which we or any of our subsidiaries are a party, and which may adversely affect our results.
- Our ability to manage fluctuations in the value of assets and liabilities and off-balance sheet exposure so as to maintain sufficient capital and liquidity to support our business.
- Our ability to execute on our strategic and operational plans, including our ability to fully realize the financial and non-financial benefits relating to our strategic initiatives.
- The success of our marketing efforts in attracting and retaining customers.
- Possible changes in consumer and business spending and saving habits and the related effect on our ability to increase assets and to attract deposits, which could adversely affect our net income.
- Our ability to recruit and retain talented and experienced personnel to assist in the development, management and operation of our products and services may be affected by changes in laws and regulations in effect from time to time.
- Fraud or misconduct by our customers, employees or business partners.
- Any inaccurate or incomplete information provided to us by our customers or counterparties.
- The risks and uncertainties related to our acquisition and integration of other companies.
- Inability of our framework to manage risks associated with our business such as credit risk and operational risk, including third-party vendors and other service providers, which could, among other things, result in a breach of operating or security systems as a result of a cyber attack or similar act.
- The inability of our internal disclosure controls and procedures to prevent, detect or mitigate any material errors or fraudulent acts.
- The effects of geopolitical instability, including wars, conflicts and terrorist attacks and the potential impact, directly or indirectly, on our businesses.
- The effects of man-made and natural disasters, including fires, floods, droughts, tornadoes, hurricanes, and environmental damage, which may negatively affect our operations and/or our loan portfolios and increase our cost of conducting business.
- Changes in commodity market prices and conditions could adversely affect the cash flows of our borrowers operating in industries that are impacted by changes in commodity prices (including businesses indirectly impacted by commodities prices such as businesses that transport commodities or manufacture equipment used in the production of commodities), which could impair their ability to service any loans outstanding to them and/or reduce demand for loans in those industries.
- Our inability to keep pace with technological changes could result in losing business to competitors.
- Our ability to identify and address cyber-security risks such as data security breaches, "denial of service" attacks, "hacking" and identity theft, a failure of which could disrupt our business and result in the disclosure of and/or misuse or misappropriation of confidential or proprietary information; disruption or damage to our systems; increased costs; losses; or adverse effects to our reputation.
- Our ability to realize our adjusted efficiency ratio target as part of our expense management initiatives.
- Significant disruption of, or loss of public confidence in, the Internet and services and devices used to access the Internet could affect the ability of our customers to access their accounts and conduct banking transactions.
- Possible downgrades in our credit ratings or outlook could increase the costs of funding from capital markets.
- The effects of problems encountered by other financial institutions that adversely affect us or the banking industry generally could require us to change certain business practices, reduce our revenue, impose additional costs on us, or otherwise negatively affect our businesses.
- The effects of the failure of any component of our business infrastructure provided by a third party could disrupt our businesses; result in the disclosure of and/or misuse of confidential information or proprietary information; increase our costs; negatively affect our reputation; and cause losses
- Our ability to receive dividends from our subsidiaries could affect our liquidity and ability to pay dividends to stockholders.
- Changes in accounting policies or procedures as may be required by the FASB or other regulatory agencies could materially affect how we report our financial results.
- Other risks identified from time to time in reports that we file with the SEC.
- The effects of any damage to our reputation resulting from developments related to any of the items identified above.

The foregoing list of factors is not exhaustive. For discussion of these and other factors that may cause actual results to differ from expectations, look under the captions "Forward-Looking Statements" and "Risk Factors" of Regions' Annual Report on Form 10-K for the year ended December 31, 2016, as filed with the SEC.

The words "anticipates," "intends," "plans," "seeks," "believes," "estimates," "expects," "targets," "projects," "outlook," "forecast," "will," "may," "could," "should," "can," and similar expressions often signify forward-looking statements. You should not place undue reliance on any forward-looking statements, which speak only as of the date made. We assume no obligation to update or revise any forward-looking statements that are made from time to time.

[^0]:    *Annualized
    (1) See reconciliation of GAAP to non-GAAP Financial Measures on pages 9, 10, 14, and 23.
    (2) Current quarter Basel III common equity as well as the Basel III common equity Tier 1, Tier 1 capital, Total risk-based capital and Leverage ratios are estimated.
    (3) The effective tax rate for the second quarter of 2016 was favorably impacted by increased benefits from affordable housing investments and tax-exempt income. The first quarter of 2016 includes an income tax benefit related to the conclusion of a state tax examination.
    (4) Excludes guaranteed residential first mortgages that are $90+$ days past due and still accruing. Refer to the footnotes on page 16 for amounts related to these loans.
    (5) Adjusted to exclude the allowance for loan losses and non-accrual loans related to the Direct Energy portfolio.

[^1]:    (1) Total deposit costs from continuing operations may be calculated by dividing total interest expense on deposits by the sum of interest-bearing deposits and non-interest bearing deposits. The rates for total deposit costs from continuing operations equal $0.14 \%$ and $0.13 \%$ for the quarters ended March 31, 2017 and December 31, 2016.

[^2]:    NM - Not Meaningful
    (1) See page 6 for additional information regarding these adjustments.

[^3]:    *Annualized

[^4]:    (1) In a period where there is a loss from discontinued operations, basic and diluted weighted-average common shares outstanding are the same

[^5]:    (1) Excludes guaranteed residential first mortgages that are $90+$ days past due and still accruing. Refer to the footnotes on page 16 for amounts related to these loans.
    (2) See page 17 for detail of restructured loans
    (3) See reconciliation of GAAP to non-GAAP Financial Measures on page 14.

[^6]:    (1) Business services represents the combined total of commercial and investor real estate loans.

[^7]:    (1) Excludes loans that are $100 \%$ guaranteed by FHA. Total $30-89$ days past due guaranteed loans excluded were $\$ 29$ million at $3 / 31 / 2017$, $\$ 34$ million at $12 / 31 / 2016, \$ 29$ million at $9 / 30 / 2016, \$ 28$ million at $6 / 30 / 2016$ and $\$ 19$ million at $3 / 31 / 2016$.
    (2) Excludes loans that are $100 \%$ guaranteed by FHA and all guaranteed loans sold to GNMA where Regions has the right but not the obligation to repurchase. Total 90 days or more past due guaranteed loans excluded were $\$ 100$ million at $3 / 31 / 2017, \$ 113$ million at $12 / 31 / 2016, \$ 99$ million at $9 / 30 / 2016, \$ 95$ million at $6 / 30 / 2016$ and $\$ 105$ million at $3 / 31 / 2016$.

[^8]:    (1) Current quarter amounts and the resulting ratio are estimated.
    (2) Regions continues to develop systems and internal controls to precisely calculate risk-weighted assets as required by Basel III on a fully phased-in basis. The amounts included above are a reasonable approximation, based on our understanding of the requirements.
