Trustmark Corporation Announces First Quarter 2019 Financial Results

JACKSON, Miss. – April 23, 2019 – Trustmark Corporation (NASDAQ:TRMK) reported net income of \$33.3 million in the first quarter of 2019, representing diluted earnings per share of \$0.51. This level of earnings resulted in a return on average tangible equity of 11.55% and a return on average assets of 1.01%. Trustmark's Board of Directors declared a quarterly cash dividend of \$0.23 per share payable June 15, 2019, to shareholders of record on June 1, 2019.

First Quarter Highlights

- Net interest margin (FTE), excluding acquired loans, was 3.60% in the first quarter, up 10 basis points from the prior quarter and 23 basis points year-over-year
- Core noninterest expense, which excludes other real estate expense and intangible amortization, totaled \$103.2 million in the first quarter, up 0.6% from the prior quarter and 3.0% year-over-year
- Sustained strong credit performance as reflected in the reduction in nonperforming assets

Gerard R. Host, President and CEO, stated, "We had a great start to the new year as reflected by profitable loan and deposit growth and solid performance in our insurance business. Additionally, we maintained disciplined expense management and continued to effectively deploy capital through our share repurchase program. We remain committed to managing the franchise for the long term, providing investments to promote profitable revenue growth, realigning delivery channels to support changing customer preferences, as well as efficiency programs that enhance long-term shareholder value."

Balance Sheet Management

- Loans held for investment increased \$159.1 million, or 1.8%, from the prior quarter and \$481.0 million, or 5.6%, year-over-year
- Deposits increased \$170.4 million, or 1.5%, from the prior quarter and \$559.0 million, or 5.1%, year-over-year
- Continued balance sheet optimization through maturing investment securities run-off and opportunistic share repurchases

Loans held for investment totaled \$9.0 billion at March 31, 2019, an increase of 1.8% from the prior quarter and 5.6% from the comparable period one year earlier. Acquired loans totaled \$93.2 million at March 31, 2019, down \$13.7 million from the prior quarter. Collectively, loans held for investment and acquired loans totaled \$9.1 billion at March 31, 2019, up \$145.4 million, or 1.6%, from the prior quarter and \$358.8 million, or 4.1%, year-over-year.

Deposits totaled \$11.5 billion at March 31, 2019, up \$170.4 million, or 1.5%, from the prior quarter. Trustmark continues to maintain an attractive, low-cost deposit base with approximately 58% of deposit balances in checking accounts. Deposit costs remain well controlled with an 8 basis point linked-quarter increase in total deposit cost.

Trustmark's capital position remained solid, reflecting the consistent profitability of its diversified financial services businesses. During the first quarter, Trustmark repurchased \$36.9 million, or approximately 1.2 million of its common shares in open market transactions, completing its \$100.0 million share repurchase program announced in 2016. As previously disclosed, Trustmark announced a new \$100.0 million share repurchase program effective April 1, 2019, which expires March 31, 2020. This repurchase program, which is subject to market conditions and management discretion, will be implemented through open market repurchases or privately negotiated transactions. At March 31, 2019, Trustmark's tangible equity to tangible assets ratio was 9.15%, while the total risk-based capital ratio was 13.21%.

Credit Quality

- Nonaccrual loans declined 8.4% and 17.9% from the prior quarter and year-over-year, respectively
- Other real estate decreased 7.3% and 18.7% from the prior quarter and year-over-year, respectively
- Net charge-offs totaled \$1.9 million during the first quarter, representing 0.09% of average loans

Nonperforming loans totaled \$56.4 million at March 31, 2019, down 8.4% from the prior quarter and 17.9% year-over-year. Other real estate totaled \$32.1 million, reflecting a decline of 7.3% from the previous quarter and 18.7% from the same period one year earlier. Collectively, nonperforming assets totaled \$88.6 million, reflecting a linked-quarter decrease of 8.0% and year-over-year decrease of 18.2%.

Allocation of Trustmark's \$79.0 million allowance for loan losses represented 0.96% of commercial loans and 0.57% of consumer and home mortgage loans, resulting in an allowance to total loans held for investment of 0.88% at March 31, 2019, representing a level management considers commensurate with the inherent risk in the loan portfolio. The allowance for loan losses represented 342.97% of nonperforming loans, excluding specifically reviewed impaired loans.

Unless otherwise noted, all of the above credit quality metrics exclude acquired loans.

Revenue Generation

- Net interest income (FTE), excluding acquired loans, totaled \$106.1 million, up 0.9% from the prior quarter and 5.7% year-over-year
- Net interest margin (FTE), excluding acquired loans, was 3.60%, an increase of 10 basis points from the prior quarter and 23 basis points year-over-year
- Maturing investment securities run-off continued to be accretive to the net interest margin

Net interest income (FTE) in the first quarter totaled \$108.0 million, resulting in a net interest margin of 3.63%, up 7 basis points from the prior quarter. Relative to the prior quarter, net interest income (FTE) decreased \$372 thousand, reflecting a \$555 thousand increase in interest income and a \$927 thousand increase in interest expense. During the first quarter of 2019, the yield on acquired loans totaled 7.45% and included \$243 thousand in recoveries from the settlement of debt, which represented approximately 0.95% of the annualized total acquired loan yield.

Noninterest income in the first quarter decreased 4.7% from the prior quarter to total \$41.5 million, as increased insurance commissions were more than offset by lower mortgage banking revenue and seasonal reductions in various fee-income categories. Insurance revenue totaled \$10.9 million in the first quarter, up 13.7% from the prior quarter and 15.4% year-over-year; this performance primarily reflects growth in the commercial property and casualty and group health businesses. Mortgage banking revenue totaled \$3.4 million in the first quarter, down \$2.3 million from the prior quarter and \$7.8 million year-over-year. The linked-quarter change reflects an increase in mortgage banking income before hedge ineffectiveness of \$1.4 million, which was more than offset by an increase in net negative hedge ineffectiveness of \$3.7 million. Mortgage loan production during the first quarter totaled \$283.5 million, down 6.7% from the prior quarter and 2.0% year-over-year.

Wealth management revenue in the first quarter totaled \$7.5 million, unchanged from the prior quarter and down 1.1% year-over-year. The year-over-year decline is primarily attributable to growth in annuity sales being more than offset by declines in trust management and brokerage revenue. Bank card and other fees declined \$559 thousand from the prior quarter due to seasonal reductions in interchange income and other miscellaneous bank fees. Service charges on deposit accounts declined \$858 thousand from the prior quarter, reflecting seasonal reductions in NSF and overdraft fees. Other income in the first quarter totaled \$2.2 million, up 17.6% from the prior quarter due principally to growth in other miscellaneous income.

Noninterest Expense

- Total noninterest expense increased 2.0% linked quarter and 3.5% year-over-year to \$106.0 million
- Core noninterest expense, which excludes other real estate expense and intangible amortization, totaled \$103.2 million, up 0.6% from the prior quarter and 3.0% year-over-year
- Continued to realign retail delivery channels with changing customer preferences

Salaries and employee benefits increased \$2.2 million from the prior quarter to total \$61.0 million. The increase was primarily attributable to growth in insurance commissions as well as a seasonal increase in payroll taxes. Services and fees decreased \$942 thousand linked-quarter. Office occupancy and total equipment expense declined \$287 thousand and \$405 thousand, respectively, linked quarter. Other real estate expense totaled \$1.8 million. Other expense totaled \$12.2 million, a decline of \$42 thousand on a linked-quarter basis.

Forward-Looking Statements

Certain statements contained in this document constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. You can identify forward-looking statements by words such as "may," "hope," "will," "should," "expect," "plan," "anticipate," "intend," "believe," "estimate," "predict," "potential," "continue," "could," "future" or the negative of those terms or other words of similar meaning. You should read statements that contain these words carefully because they discuss our future expectations or state other "forward-looking" information. These forward-looking statements include, but are not limited to, statements relating to anticipated future operating and financial performance measures, including net interest margin, credit quality, business initiatives, growth opportunities and growth rates, among other things, and encompass any estimate, prediction, expectation, projection, opinion, anticipation, outlook or statement of belief included therein as well as the management assumptions underlying these forward-looking statements. You should be aware that the occurrence of the events described under the caption "Risk Factors" in Trustmark's filings with the Securities and Exchange Commission could have an adverse effect on our business, results of operations and financial condition. Should one or more of these risks materialize, or should any such underlying assumptions prove to be significantly different, actual results may vary significantly from those anticipated, estimated, projected or expected.

Risks that could cause actual results to differ materially from current expectations of Management include, but are not limited to, changes in the level of nonperforming assets and charge-offs, local, state and national economic and market conditions, including potential market impacts of efforts by the Federal Reserve Board to reduce the size of its balance sheet, conditions in the housing and real estate markets in the regions in which Trustmark operates and the extent and duration of the current volatility in the credit and financial markets as well as crude oil prices, changes in our ability to measure the fair value of assets in our portfolio, material changes in the level and/or volatility of market interest rates, the performance and demand for the products and services we offer, including the level and timing of withdrawals from our deposit accounts, the costs and effects of litigation and of unexpected or adverse outcomes in such litigation, our ability to attract noninterest-bearing deposits and other low-cost funds, competition in loan and deposit pricing, as well as the entry of new competitors into our markets through de novo expansion and acquisitions, economic conditions, including the potential impact of issues related to the European financial system and monetary and other governmental actions designed to address credit, securities, and/or commodity markets, the enactment of legislation and changes in existing regulations or enforcement practices or the adoption of new regulations, changes in accounting standards and practices, including changes in the interpretation of existing standards, that affect our consolidated financial statements, changes in consumer spending, borrowings and savings habits, technological changes, changes in the financial performance or condition of our borrowers, changes in our ability to control expenses, greater than expected costs or difficulties related to the integration of acquisitions or new products and lines of business, cyber-attacks and other breaches which could affect our information system security, natural disasters, environmental disasters, acts of war or terrorism, and other risks described in our filings with the Securities and Exchange Commission.

Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct. Except as required by law, we undertake no obligation to update or revise any of this information, whether as the result of new information, future events or developments or otherwise.

Note 1 – Leases

ASU 2016-02, “Leases (Topic 842)” became effective for Trustmark on January 1, 2019. As a result, during the first quarter of 2019, Trustmark recorded operating lease right-of-use assets and operating lease liabilities of \$33.9 million and \$34.9 million, respectively, in its consolidated balance sheet. In addition, Trustmark recorded finance lease right-of-use assets, net of accumulated depreciation of \$11.2 million in premises and equipment, net and finance lease liabilities of \$11.2 million in other borrowings. The effect on Trustmark’s consolidated income statement is considered immaterial.

At March 31, 2019, the net unamortized, unrealized loss included in accumulated other comprehensive loss in the accompanying balance sheet for securities held to maturity previously transferred from securities available for sale totaled approximately \$15.0 million (\$11.2 million, net of tax).

Management continues to focus on asset quality as one of the strategic goals of the securities portfolio, which is evidenced by the investment of approximately 97% of the portfolio in GSE-backed obligations and other Aaa rated securities as determined by Moody’s. None of the securities owned by Trustmark are collateralized by assets which are considered sub-prime. Furthermore, outside of stock ownership in the Federal Home Loan Bank of Dallas, Federal Home Loan Bank of Atlanta and Federal Reserve Bank, Trustmark does not hold any other equity investment in a GSE.

Net interest margin excluding acquired loans	3.60%	3.50%	3.50%	3.46%	3.37%

Reflected in the table above are yields on earning assets and liabilities, along with the net interest margin which equals reported net interest income-FTE, annualized, as a percent of average earning assets. In addition, the table includes net interest margin excluding acquired loans, which equals reported net interest income-FTE excluding interest income on acquired loans, annualized, as a percent of average earning assets excluding average acquired loans.

During the first quarter of 2019, the yield on acquired loans totaled 7.45% and included \$243 thousand in recoveries from the settlement of debt, which represented approximately 0.95% of the annualized total acquired loan yield. During the fourth quarter of 2018, the yield on acquired loans totaled 9.89% and included \$1.1 million in recoveries from the settlement of debt, which represented approximately 3.52% of the annualized total acquired loan yield.

Excluding acquired loans, the net interest margin increased to 3.60% for the first quarter of 2019 when compared to the fourth quarter of 2018, as growth in the yield on the loans held for investment and held for sale portfolio, runoff of maturing investment securities, and favorable funding mix were offset by higher costs of interest-bearing deposits.

Note 5 – Mortgage Banking

Trustmark utilizes a portfolio of exchange-traded derivative instruments, such as Treasury note futures contracts and option contracts, to achieve a fair value return that offsets the changes in fair value of mortgage servicing rights (MSR) attributable to interest rates. These transactions are considered freestanding derivatives that do not otherwise qualify for hedge accounting under generally accepted accounting principles (GAAP). Changes in the fair value of these exchange-traded derivative instruments, including administrative costs, are recorded in noninterest income in mortgage banking, net and are offset by the changes in the fair value of the MSR. The MSR fair value represents the present value of future cash flows, which among other things includes decay and the effect of changes in interest rates. Ineffectiveness of hedging the MSR fair value is measured by comparing the change in value of hedge instruments to the change in the fair value of the MSR asset attributable to changes in interest rates and other market driven changes in valuation inputs and assumptions. The impact of this strategy resulted in a net negative ineffectiveness of \$4.8 million as mortgage spreads tightened and market volatility increased during the first quarter of 2019.

The following table illustrates the components of mortgage banking revenues included in noninterest income in the accompanying income statements:

Trustmark invests in partnerships that provide income tax credits on a Federal and/or State basis (i.e., new market tax credits, low income housing tax credits and historical tax credits). The income tax credits related to these partnerships are utilized as specifically allowed by income tax law and are recorded as a reduction in income tax expense.

Trustmark did not receive any nontaxable proceeds related to bank-owned life insurance during the first quarter of 2019. Trustmark received \$24 thousand, \$13 thousand and \$1.2 million of nontaxable proceeds related to bank-owned life insurance during the fourth quarter of 2018, the third quarter of 2018 and the second quarter of 2018, respectively. These proceeds were recorded in other miscellaneous income in the table above.

Note 7 – Non-GAAP Financial Measures

In addition to capital ratios defined by U.S. generally accepted accounting principles (GAAP) and banking regulators, Trustmark utilizes various tangible common equity measures when evaluating capital utilization and adequacy. Tangible common equity, as defined by Trustmark, represents common equity less goodwill and identifiable intangible assets.

Trustmark believes these measures are important because they reflect the level of capital available to withstand unexpected market conditions. Additionally, presentation of these measures allows readers to compare certain aspects of Trustmark's capitalization to other organizations. These ratios differ from capital measures defined by banking regulators principally in that the numerator excludes shareholders' equity associated with preferred securities, the nature and extent of which varies across organizations. In Management's experience, many stock analysts use tangible common equity measures in conjunction with more traditional bank capital ratios to compare capital adequacy of banking organizations with significant amounts of goodwill or other tangible assets, typically stemming from the use of the purchase accounting method in accounting for mergers and acquisitions.

These calculations are intended to complement the capital ratios defined by GAAP and banking regulators. Because GAAP does not include these capital ratio measures, Trustmark believes there are no comparable GAAP financial measures to these tangible common equity ratios. Despite the importance of these measures to Trustmark, there are no standardized definitions for them and, as a result, Trustmark's calculations may not be comparable with other organizations. Also there may be limits in the usefulness of these measures to investors. As a result, Trustmark encourages readers to consider its consolidated financial statements in their entirety and not to rely on any single financial measure. The following table reconciles Trustmark's calculation of these measures to amounts reported under GAAP.
