

WORKING CAPITAL MANAGEMENT

Solutions Portfolio

COST OF SERVICE ANALYSIS

Cost-of-Service analysis solutions leverage analytics-driven approaches to help you allocate costs across different levels while offering greater visibility into business outcomes.

END-TO-END COST DISTRIBUTION DASHBOARD

Create and view all cost metrics on a single, interactive dashboard designed to meet your unique end-to-end business requirements. Right from the initial design phase to the ongoing monitoring of costs, our working capital management dashboards are designed to add value to the services delivered.

OPTIMIZATION OF INVENTORY IN TRANSIT

Our working capital management solutions can help you deal with this trade-off by optimizing inventory levels among global supply chains and granting access to innovative financing services for goods in transit.

WHY CHOOSE QUANTZIG?

- Domain knowledge and learning-driven mindset
- Agile, robust, and cutting-edge analytics models
- Flexible white box solutions
- Cross-domain pollination
