[^4]Regions Financial Corporation and Subsidiaries

## Financial Supplement to Third Quarter 2020 Earnings Release

## Pre-Tax Pre-Provision Income ("PPI") and Adjusted PPI (non-GAAP)

The Pre-Tax Pre-Provision Income tables below present computations of pre-tax pre-provision income excluding certain adjustments (non-GAAP). Regions believes that the presentation of PPI and the exclusion of certain items from PPI provides a meaningful base for period-to-period comparisons, which management believes will assist investors in analyzing the operating results of the Company and predicting future performance. These non-GAAP financial measures are also used by management to assess the performance of Regions' business. It is possible that the activities related to the adjustments may recur; however, management does not consider the activities related to the adjustments to be indications of ongoing operations. Regions believes that presentation of these non-GAAP financial measures will permit investors to assess the performance of the Company on the same basis as that applied by management. NonGAAP financial measures have inherent limitations, are not required to be uniformly applied and are not audited. Although these non-GAAP financial measures are frequently used by stakeholders in the evaluation of a company, they have limitations as analytical tools, and should not be considered in isolation, or as a substitute for analyses of results as reported under GAAP. In particular, a measure of income that excludes certain adjustments does not represent the amount that effectively accrues directly to shareholders.

## $\overline{\text { NM - Not Meaningful }}$

(1) Upon adoption of CECL on January 1, 2020, the provision for credit losses is the sum of the provision for loan losses and the provision for unfunded credit commitments. Prior to the adoption, the provision for unfunded commitments was included in other non-interest expense
(2) In the third quarter of 2020, the equity investee executed an initial public offering. However, the Company is subject to a conventional post-issuance 180 day lock-up period, which prevents the sale of its position.

NM - Not Meaningful
(1) Capital markets income primarily relates to capital raising activities that includes debt securities underwriting and placement, loan syndication and placement, as well as foreign exchange, derivative and merger and acquisition advisory services.
(2) These market value adjustments relate to assets held for employee benefits that are offset within salaries and employee benefits expense.
(3) In the third quarter of 2020, the equity investee executed an initial public offering. However, the Company is subject to a conventional post-issuance 180 day lock-up period, which prevents the sale of its position.
(4) In the first quarter of 2020, Regions revised its MSR decay methodology from a passage of time approach to a discounted net cash flow approach. The change in methodology results in shifts between decay and hedge impacts, but does not impact the overall valuation.
(5) Total mortgage production represents production during the period, including amounts sold into the secondary market as well as amounts retained in Regions' residential firs mortgage loan portfolio.
(6) Total wealth management income presented above does not include the portion of service charges on deposit accounts and similar smaller dollar amounts that are also attributable to the wealth management segment
(7) For the purposes of determining the fair value of customer derivatives, the Company considers the risk of nonperformance by counterparties, as well as the Company's own risk of nonperformance. The valuation adjustments above are reflective of the values associated with these considerations.

| Capital markets income excluding valuation adjustments | \$ | 160 | \$ | 132 | \$ | 28 | 21.2\% |

## NM - Not Meaningful

(1) Capital markets income primarily relates to capital raising activities that includes debt securities underwriting and placement, loan syndication and placement, as well as foreign exchange, derivative and merger and acquisition advisory services.
(2) During the second quarter of 2019, the Company reallocated these employee benefit assets from primarily equity securities to fixed income investments. Market valuation adjustments for fixed income investments are recorded in other comprehensive income, and as such these adjustments have not impacted non-interest income since the first quarter of 2019 .
(3) These market value adjustments relate to assets held for employee benefits that are offset within salaries and employee benefits expense.
(4) In the third quarter of 2020, the equity investee executed an initial public offering. However, the Company is subject to a conventional post-issuance 180 day lock-up period, which prevents the sale of its position.
(5) In the first quarter of 2020, Regions revised its MSR decay methodology from a passage of time approach to a discounted net cash flow approach. The change in methodology results in shifts between decay and hedge impacts, but does not impact the overall valuation.
(6) Total mortgage production represents production during the period, including amounts sold into the secondary market as well as amounts retained in Regions' residential first mortgage loan portfolio.
(7) Total wealth management income presented above does not include the portion of service charges on deposit accounts and similar smaller dollar amounts that are also attributable to the wealth management segment.
(8) For the purposes of determining the fair value of customer derivatives, the Company considers the risk of nonperformance by counterparties, as well as the Company's own risk of nonperformance. The valuation adjustments above are reflective of the values associated with these considerations.

## NM - Not Meaningful

(1) Upon adoption of CECL on January 1, 2020, the provision for credit losses presented within net interest income after provision for credit losses is the sum of the provision for loan losses and the provision for unfunded credit commitments. Prior to the adoption of CECL, the provision for unfunded commitments was included in other non-interest expense.

## Financial Supplement to Third Quarter 2020 Earnings Release

## Reconciliation to GAAP Financial Measures

## Adjusted Efficiency Ratios, Adjusted Fee Income Ratios, Adjusted Non-Interest Income/Expense, and Adjusted Operating Leverage Ratios

The table below and on the following page present computations of the efficiency ratio, which is a measure of productivity, generally calculated as non-interest expense divided by total

 the fee income ratio. Net interest income and non-interest income are added together to arrive at total revenue. Adjustments are made to arrive at adjusted total revenue (non-GAAP). Net

 These non-GAAP financial measures are also used by management to assess the performance of Regions' business. It is possible that the activities related to the adjustments may recur
 operating leverage ratio (non-GAAP) which is the period to period percentage change in adjusted total revenue on a taxable-equivalent basis (non-GAAP) less the percentage change in
 same basis as that applied by management.

## Regions Financial Corporation and Subsidiaries

## Financial Supplement to Third Quarter 2020 Earnings Release

## Reconciliation to GAAP Financial Measure

## Return Ratio

The table below provides a calculation of "return on average tangible common shareholders' equity". Tangible common shareholders' equity ratios have become a focus of some investors and management believes they may assist investors in analyzing the capital position of the Company absent the effects of intangible assets and preferred stock. Analysts and banking regulators have assessed Regions' capital adequacy using the tangible common shareholders' equity measure. Because tangible common shareholders' equity is not formally defined by GAAP or prescribed in any amount by federal banking regulations it is currently considered to be a non-GAAP financial measure and other entities may calculate it differently than Regions' disclosed calculations. Since analysts and banking regulators may assess Regions' capital adequacy using tangible common shareholders' equity, management believes that it is useful to provide investors the ability to assess Regions' capital adequacy on this same basis.

(1) Regions adopted the CECL accounting guidance on January 1, 2020 and recorded the cumulative effect of the change in accounting guidance as a reduction to retained earnings and an increase to deferred tax assets.
(2) Excludes guaranteed residential first mortgages that are $90+$ days past due and still accruing. Refer to the footnotes on page 16 for amounts related to these loans.
(3) Business represents the combined total of commercial and investor real estate loans

## ACL/ Loans excluding PPP, net (non-GAAP)

Regions believes this ACL ratio provides investors with meaningful additional information about credit loss allowance levels when the SBA's Paycheck Protection Program (PPP) loans, which are fully backed by the U.S. government, are excluded from total loans.

Adjusted Average Balances of Loans (non-GAAP)
Regions believes adjusting total average loans for the impact of SBA PPP loans, the indirect- other consumer exit portfolio and the indirect vehicles exit portfolio, provides a meaningful calculation of loan growth rates and presents them on the same basis as that applied by management.

Adjusted Average Balances of Loans (non-GAAP)
Regions believes adjusting total average loans for the impact of SBA PPP loans, the indirect- other consumer exit portfolio and the indirect vehicles exit portfolio, provides a meaningful calculation of loan growth rates and presents them on the same basis as that applied by management.

## Regions Financial Corporation and Subsidiaries

## Financial Supplement to Third Quarter 2020 Earnings Release

## Reconciliation to GAAP Financial Measures

## Tangible Common Ratios

The following tables provide the calculation of the end of period "tangible common shareholders' equity" and "tangible common book value per share" ratios, and a reconciliation of shareholders' equity (GAAP) to tangible common shareholders' equity (non-GAAP). Since analysts and banking regulators may assess Regions' capital adequacy using tangible common shareholders' equity, we believe that it is useful to provide investors the ability to assess Regions' capital adequacy on this same basis.

## Regions Financial Corporation and Subsidiaries

## Financial Supplement to Third Quarter 2020 Earnings Release

## Forward-Looking Statements

This release may include forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Any statement that does not describe historical or current facts is a forward-looking statement. Forward-looking statements are not based on historical information, but rather are related to future operations, strategies, financial results or other developments. Forward-looking statements are based on management's current expectations as well as certain assumptions and estimates made by, and information available to, management at the time the statements are made. Those statements are based on general assumptions and are subject to various risks, and because they also relate to the future they are likewise subject to inherent uncertainties and other factors that may cause actual results to differ materially from the views, beliefs and projections expressed in such statements. Therefore, we caution you against relying on any of these forward-looking statements. These risks, uncertainties and other factors include, but are not limited to, those described below:

- Current and future economic and market conditions in the United States generally or in the communities we serve (in particular the Southeastern United States), including the effects of possible declines in property values, increases in unemployment rates, financial market disruptions and potential reductions of economic growth, which may adversely affect our lending and other businesses and our financial results and conditions.
- Possible changes in trade, monetary and fiscal policies of, and other activities undertaken by, governments, agencies, central banks and similar organizations, which could have a material adverse effect on our earnings.
- Possible changes in market interest rates or capital markets could adversely affect our revenue and expense, the value of assets and obligations, and the availability and cost of capital and liquidity.
- The impact of pandemics, including the ongoing COVID-19 pandemic, on our businesses and financial results and conditions. The duration and severity of the ongoing COVID-19 pandemic, which has disrupted the global economy, has and could continue to adversely affect our capital and liquidity position, impair the ability of borrowers to repay outstanding loans and increase our allowance for credit losses, impair collateral values, and result in lost revenue or additional expenses. The pandemic could also cause an outflow of deposits, result in goodwill impairment charges and the impairment of other financial and nonfinancial assets, and increase our cost of capital.
- Any impairment of our goodwill or other intangibles, any repricing of assets, or any adjustment of valuation allowances on our deferred tax assets due to changes in law, adverse changes in the economic environment, declining operations of the reporting unit or other factors.
- The effect of changes in tax laws, including the effect of any future interpretations of or amendments to Tax Reform, which may impact our earnings, capital ratios and our ability to return capital to shareholders.
- Possible changes in the creditworthiness of customers and the possible impairment of the collectability of loans and leases, including operating leases.
- Changes in the speed of loan prepayments, loan origination and sale volumes, charge-offs, loan loss provisions or actual loan losses where our allowance for loan losses may not be adequate to cover our eventual losses.
- Possible acceleration of prepayments on mortgage-backed securities due to low interest rates, and the related acceleration of premium amortization on those securities.
- Loss of customer checking and savings account deposits as customers pursue other, higher-yield investments, which could increase our funding costs.
- Possible changes in consumer and business spending and saving habits and the related effect on our ability to increase assets and to attract deposits, which could adversely affect our net income.
- Our ability to effectively compete with other traditional and non-traditional financial services companies, some of whom possess greater financial resources than we do or are subject to different regulatory standards than we are.
- Our inability to develop and gain acceptance from current and prospective customers for new products and services and the enhancement of existing products and services to meet customers' needs and respond to emerging technological trends in a timely manner could have a negative impact on our revenue.
- Our inability to keep pace with technological changes could result in losing business to competitors.
- Changes in laws and regulations affecting our businesses, including legislation and regulations relating to bank products and services, as well as changes in the enforcement and interpretation of such laws and regulations by applicable governmental and self-regulatory agencies, which could require us to change certain business practices, increase compliance risk, reduce our revenue, impose additional costs on us, or otherwise negatively affect our businesses.
- Our capital actions, including dividend payments, common stock repurchases, or redemptions of preferred stock or other regulatory capital instruments, must not cause us to fall below minimum capital ratio requirements, with applicable buffers taken into account, and must comply with other requirements under law or imposed by our regulators, which may impact our ability to return capital to shareholders.
- Our ability to comply with stress testing and capital planning requirements (as part of the CCAR process or otherwise) may continue to require a significant investment of our managerial resources due to the importance of such tests and requirements.
- Our ability to comply with applicable capital and liquidity requirements (including, among other things, the Basel III capital standards), including our ability to generate capital internally or raise capital on favorable terms, and if we fail to meet requirements, our financial condition and market perceptions of us could be negatively impacted.
- The effects of any developments, changes or actions relating to any litigation or regulatory proceedings brought against us or any of our subsidiaries.
- The costs, including possibly incurring fines, penalties, or other negative effects (including reputational harm) of any adverse judicial, administrative, or arbitral rulings or proceedings, regulatory enforcement actions, or other legal actions to which we or any of our subsidiaries are a party, and which may adversely affect our results.
- Our ability to manage fluctuations in the value of assets and liabilities and off-balance sheet exposure so as to maintain sufficient capital and liquidity to support our business.
- Our ability to execute on our strategic and operational plans, including our ability to fully realize the financial and non-financial benefits relating to our strategic initiatives.
- The risks and uncertainties related to our acquisition or divestiture of businesses.
- The success of our marketing efforts in attracting and retaining customers.

## Financial Supplement to Third Quarter 2020 Earnings Release

- Our ability to recruit and retain talented and experienced personnel to assist in the development, management and operation of our products and services may be affected by changes in laws and regulations in effect from time to time.
- Fraud or misconduct by our customers, employees or business partners.
- Any inaccurate or incomplete information provided to us by our customers or counterparties.
- Inability of our framework to manage risks associated with our business such as credit risk and operational risk, including third-party vendors and other service providers, which could, among other things, result in a breach of operating or security systems as a result of a cyber attack or similar act or failure to deliver our services effectively.
- Dependence on key suppliers or vendors to obtain equipment and other supplies for our business on acceptable terms.
- The inability of our internal controls and procedures to prevent, detect or mitigate any material errors or fraudulent acts.
- The effects of geopolitical instability, including wars, conflicts and terrorist attacks and the potential impact, directly or indirectly, on our businesses.
- The effects of man-made and natural disasters, including fires, floods, droughts, tornadoes, hurricanes, and environmental damage (specifically in the Southeastern United States), which may negatively affect our operations and/or our loan portfolios and increase our cost of conducting business. The severity and impact of future earthquakes, fires, hurricanes, tornadoes, droughts, floods and other weather-related events are difficult to predict and may be exacerbated by global climate change.
- Changes in commodity market prices and conditions could adversely affect the cash flows of our borrowers operating in industries that are impacted by changes in commodity prices (including businesses indirectly impacted by commodities prices such as businesses that transport commodities or manufacture equipment used in the production of commodities), which could impair their ability to service any loans outstanding to them and/or reduce demand for loans in those industries.
- Our ability to identify and address cyber-security risks such as data security breaches, malware, "denial of service" attacks, "hacking" and identity theft, including account take-overs, a failure of which could disrupt our business and result in the disclosure of and/or misuse or misappropriation of confidential or proprietary information, disruption or damage to our systems, increased costs, losses, or adverse effects to our reputation.
- Our ability to achieve our expense management initiatives.
- Market replacement of LIBOR and the related effect on our LIBOR-based financial products and contracts, including, but not limited to, derivative products, debt obligations, deposits, investments, and loans.
- Possible downgrades in our credit ratings or outlook could, among other negative impacts, increase the costs of funding from capital markets.
- The effects of a possible downgrade in the U.S. government's sovereign credit rating or outlook, which could result in risks to us and general economic conditions that we are not able to predict.
- The effects of problems encountered by other financial institutions that adversely affect us or the banking industry generally could require us to change certain business practices, reduce our revenue, impose additional costs on us, or otherwise negatively affect our businesses.
- The effects of the failure of any component of our business infrastructure provided by a third party could disrupt our businesses, result in the disclosure of and/or misuse of confidential information or proprietary information, increase our costs, negatively affect our reputation, and cause losses.
- Our ability to receive dividends from our subsidiaries could affect our liquidity and ability to pay dividends to shareholders.
- Changes in accounting policies or procedures as may be required by the FASB or other regulatory agencies could materially affect our financial statements and how we report those results, and expectations and preliminary analyses relating to how such changes will affect our financial results could prove incorrect.
- Other risks identified from time to time in reports that we file with the SEC.
- Fluctuations in the price of our common stock and inability to complete stock repurchases in the time frame and/or on the terms anticipated.
- The effects of any damage to our reputation resulting from developments related to any of the items identified above.

The foregoing list of factors is not exhaustive. For discussion of these and other factors that may cause actual results to differ from expectations, look under the captions "Forward-Looking Statements" and "Risk Factors" of Regions' Annual Report on Form 10-K for the year ended December 31, 2019 and the "Risk Factors" of Regions' Quarterly Report on Form 10-Q for the quarter ended June 30, 2020 as filed with the SEC.

Further, statements about the potential effects of the COVID-19 pandemic on our businesses and financial results and conditions may constitute forward-looking statements and are subject to the risk that the actual effects may differ, possibly materially, from what is reflected in those forward-looking statements due to factors and future developments that are uncertain, unpredictable and in many cases beyond our control, including the scope and duration of the pandemic, actions taken by governmental authorities in response to the pandemic, and the direct and indirect impact of the pandemic on our customers, third parties and us.

The words "future," "anticipates," "assumes," "intends," "plans," "seeks," "believes," "predicts," "potential," "objectives," "estimates," "expects," "targets," "projects," "outlook," "forecast," "would," "will," "may," "might," "could," "should," "can," and similar terms and expressions often signify forward-looking statements. You should not place undue reliance on any forward-looking statements, which speak only as of the date made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible to predict all of them. We assume no obligation and do not intend to update or revise any forward-looking statements that are made from time to time, either as a result of future developments, new information or otherwise, except as may be required by law.

Regions' Investor Relations contact is Dana Nolan at (205) 264-7040; Regions' Media contact is Evelyn Mitchell at (205) 264-4551.

[^0]:    (1) Upon adoption of the Current Expected Credit Losses (CECL) accounting guidance on January 1, 2020, the provision for credit losses is the sum of the provision for loan losses and the provision for unfunded credit commitments. Prior to the adoption of CECL, the provision for unfunded commitments was included in other non-interest expense.

[^1]:    *Annualized
    (1) Calculated by dividing income by consolidated average assets.
    (2) See reconciliation of GAAP to non-GAAP Financial Measures on pages 7, 11, 12, 13, 15, 20, 21, and 24.
    (3) Current quarter Basel III common equity as well as Total risk-weighted assets, Basel III common equity Tier 1, Tier 1 capital, Total risk-based capital and Leverage ratios are estimated.
    (4) Excludes guaranteed residential first mortgages that are $90+$ days past due and still accruing. Refer to the footnotes on page 16 for amounts related to these loans
    (5) Associate headcount for the second quarter of 2020 includes 463 associates from the Ascentium acquisition.

[^2]:    (1) Upon adoption of CECL on January 1, 2020, the provision for credit losses is the sum of the provision for loan losses and the provision for unfunded credit commitments. Prior to the adoption of CECL, the provision for unfunded commitments was included in other non-interest expense.
    (2) Quarterly amounts may not add to year-to-date amounts due to rounding.

[^3]:    (1) Debt securities are included on an amortized cost basis with yield and net interest margin calculated accordingly.
    (2) Total deposit costs may be calculated by dividing total interest expense on deposits by the sum of interest-bearing deposits and non-interest bearing deposits. The rates for total deposit costs equal $0.11 \%$ for the quarter ended September 30, 2020 and $0.14 \%$ for the quarter ended June 30, 2020.

[^4]:    (1) Debt securities are included on an amortized cost basis with yield and net interest margin calculated accordingly.
    (2) Total deposit costs may be calculated by dividing total interest expense on deposits by the sum of interest-bearing deposits and non-interest bearing deposits. The rates for total deposit costs equal $0.35 \%$ for the quarter ended March 31, 2020, $0.41 \%$ for the quarter ended December 31, 2019 and $0.49 \%$ for the quarter ended September 30, 2019.

[^5]:    $\overline{\text { NM - Not Meaningful }}$
    (1) The gain on sale of affordable housing residential mortgage loans in the first quarter of 2019 was the result of the sale of approximately $\$ 167$ million of loans.
    (2) Amounts have been calculated using whole dollar values.

[^6]:    *Annualized

[^7]:    (1) Excludes loans that are $100 \%$ guaranteed by FHA. Total $30-89$ days past due guaranteed loans excluded were $\$ 57$ million at $9 / 30 / 2020$, $\$ 56$ million at $6 / 30 / 2020, \$ 37$ million at $3 / 31 / 2020$, $\$ 42$ million at $12 / 31 / 2019$, and $\$ 37$ million at $9 / 30 / 2019$.
    (2) Excludes loans that are $100 \%$ guaranteed by FHA and all guaranteed loans sold to GNMA where Regions has the right but not the obligation to repurchase. Total 90 days or more past due guaranteed loans excluded were $\$ 47$ million at $9 / 30 / 2020, \$ 55$ million at $6 / 30 / 2020$, $\$ 59$ million at $3 / 31 / 2020$, and $\$ 66$ million at $12 / 31 / 2019$ and $9 / 30 / 2019$.

[^8]:    (1) In the forth quarter of 2019, Regions decided not to renew a third party relationship

[^9]:    $\overline{(1)}$ In the fourth quarter of 2019, Regions decided not to renew a third party relationship.

[^10]:    (1) Other deposits represent non-customer balances primarily consisting of wholesale funding (for example, Eurodollar trade deposits, selected deposits and brokered time deposits).

[^11]:    (1) Other deposits represent non-customer balances primarily consisting of wholesale funding (for example, Eurodollar trade deposits, selected deposits and brokered time deposits).
