

MICROBAN 24

PROTECTION THAT LIVES ON

WHAT IT IS

24-HOUR PROTECTION AGAINST BACTERIA

- ▶ Microban 24 is a revolution in home sanitizing, keeping surfaces protected against bacteria for 24 hours, even after multiple touches.¹
- ▶ While many disinfectants kill 99.9% of bacteria, Microban 24 does this and continues working throughout the day to provide long-lasting protection for surfaces in your home when used as directed as a 24-hour sanitizer.

HOW IT WORKS

MULTI-TOUCH PROTECTION

- ▶ The power behind Microban 24 is a multi-layer protective shield on the surface. This multi-layer shield binds the bacteria-fighting ingredient to the surface, even when contacted multiple times when used as directed.
- ▶ To help keep surfaces sanitized for up to 24 hours, spray Microban 24 6"-8" away from the surface until it is thoroughly wet. Let the product air dry to get the 24-hour protection.

THE MICROBAN 24 DIFFERENCE

A PRODUCT THAT WORKS AS HARD AS YOU DO

- ▶ Microban 24 Sanitizing Spray and Multi-Purpose Cleaner have been approved as effective at killing the virus that causes COVID-19 (SARS-CoV-2).
- ▶ When used as directed, the Microban 24 Bathroom Cleaner destroys soap scum and prevents the growth of mold and mildew for 7 days.²
- ▶ With many disinfectants, bacteria can be reintroduced after the first touch. The unique Microban 24 technology kills the bacteria after it is introduced and provides continuous surface protection against bacteria¹ when used as directed as a 24-hour sanitizer.
