# Q1 2021

As the COVID-19 pandemic continues to impact the world and our industry, our employees continue to work together to meet the needs of our customers and patients, all while we remain focused on our long-term goals and laying the foundation for future growth.

We have improved our profitability and reduced our net debt to \$23.2 billion. We have also seen solid performance from our key growth drivers: the biosimilar Truxima® increased its market share to 26%, AUSTEDO® continued its year-over-year growth, and AJOVY® solidified its market share in the U.S. and continues to expand in Europe.

Based on our results and expectations for the remainder of the year, we are reaffirming our guidance.

#### Kåre Schultz

President & Chief Executive Officer

#### 2021 Financial Results

Revenue

Q1 results: \$4.0 billion

**2021 guidance:** \$16.4-\$16.8 billion

EPS\*

\$0.63

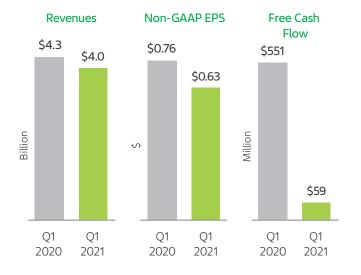

\$2.50 - \$2.70 \*Non-GAAP EPS

EXPANDING GENERICS AND INNOVATION PORTFOLIO FOR THE WORLD

**Register and authorize medicines** in our access programs in high-burden countries

**Ensure consideration of access to medicine strategy** for new product launches **(2023** and **beyond)** 

## **Cautionary Note Regarding Forward-Looking Statements**

This infographic contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, which are based on management's current beliefs and expectations and are subject to substantial risks and uncertainties, both known and unknown, that could cause our future results, performance or achievements to differ significantly from that expressed or implied by such forward-looking statements. Important factors that could cause or contribute to such differences include risks relating to:

- our ability to successfully compete in the marketplace, including: that we are substantially dependent on our generic products; consolidation of our customer base and commercial alliances among our customers; delays in launches of new generic products; the increase in the number of competitors targeting generic opportunities and seeking U.S. market exclusivity for generic versions of significant products; our ability to develop and commercialize biopharmaceutical products; competition for our specialty products, including AUSTEDO®, AJOVY® and COPAXONE®; our ability to achieve expected results from investments in our product pipeline; our ability to develop and commercialize additional pharmaceutical products; and the effectiveness of our patents and other measures to protect our intellectual property rights;
- our substantial indebtedness, which may limit our ability to incur additional indebtedness, engage in additional transactions or make new investments, may result in a further downgrade of our credit ratings; and our inability to raise debt or borrow funds in amounts or on terms that are favorable to us;
- our business and operations in general, including: uncertainty regarding the COVID-19 pandemic and its impact on our business, financial condition, operations, cash flows, and liquidity and on the economy in general; our ability to successfully execute and maintain the activities and efforts related to the measures we have taken or may take in response to the COVID-19 pandemic and associated costs therewith; effectiveness of our optimization efforts; our ability to attract, hire and retain highly skilled personnel; manufacturing or quality control problems; interruptions in our supply chain; disruptions of information technology systems; breaches of our data security; variations in intellectual property laws; challenges associated with conducting business globally, including political or economic instability, major hostilities or

- terrorism; costs and delays resulting from the extensive pharmaceutical regulation to which we are subject or delays in governmental processing time due to travel and work restrictions caused by the COVID-19 pandemic;
- the effects of reforms in healthcare regulation and reductions in pharmaceutical pricing, reimbursement and coverage; significant sales to a limited number of customers; our ability to successfully bid for suitable acquisition targets or licensing opportunities, or to consummate and integrate acquisitions; and our prospects and opportunities for growth if we sell assets;
- compliance, regulatory and litigation matters, including:
   failure to comply with complex legal and regulatory
   environments; increased legal and regulatory action in
   connection with public concern over the abuse of opioid
   medications and our ability to reach a final resolution of the
   remaining opioid-related litigation; scrutiny from
   competition and pricing authorities around the world,
   including our ability to successfully defend against the
   U.S. Department of Justice criminal charges of Sherman Act
   violations; potential liability for patent infringement;
   product liability claims; failure to comply with complex
   Medicare and Medicaid reporting and payment
   obligations; compliance with anti-corruption sanctions and
   trade control laws; and environmental risks;
- other financial and economic risks, including: our exposure
  to currency fluctuations and restrictions as well as credit
  risks; potential impairments of our intangible assets;
  potential significant increases in tax liabilities (including as
  a result of potential tax reform in the United States); and
  the effect on our overall effective tax rate of the termination
  or expiration of governmental programs or tax benefits, or
  of a change in our business;

and other factors discussed in this infographic, in our Quarterly Report on Form 10-Q for the first quarter of 2021 and in our Annual Report on Form 10-K for the year ended December 31, 2020, including in the sections captioned "Risk Factors" and "Forward Looking Statements." Forward-looking statements speak only as of the date on which they are made, and we assume no obligation to update or revise any forward-looking statements or other information contained herein, whether as a result of new information, future events or otherwise. You are cautioned not to put undue reliance on these forward-looking statements.
