

ROAM THE UNKNOWN

WITH THE NEW TREAD® OVERLAND AND SXS ALL-TERRAIN NAVIGATORS FROM GARMIN

The all-new lineup of Tread all-terrain navigators – the SxS Edition and two new Overland Editions – bring you even more confidence as you head into the unknown. Whether it's all about chasing adrenaline in a side-by-side or journeying to new places in your rig, Tread is your guide to getting there and back. Choose from an 8" or 10" ultrabright display, and get turn-by-turn trail navigation¹, preloaded topography and built-in inReach[®] technology².

Garmin expands its Tread® series, offering ultimate all-terrain navigation and worldwide communication to overlanders and powersports enthusiasts. Ultrabright 8" or 10" displays combine all-terrain mapping, tracking and communication to make your adventures into the wild better than ever.

Purpose-built for off-road adventures:

- These rugged, IP67 weather-resistant³ devices can withstand challenging weather and trail conditions.
- The large ultrabright 8" or 10" touchscreen display is easy to see and glove-friendly.
- With an active satellite subscription, built-in inReach® technology² lets you stay in contact from anywhere.
- These navigators work where cell towers can't reach, so you'll get dependable guidance no matter how far off the beaten path.
- Riding with friends? The Tread – SxS Edition includes Group Ride Radio, so you can easily stay connected with other Tread-equipped riders in your group.
- Track friends from your compatible smartphone or Tread device when you and your friends use the Tread app's Group Ride Mobile feature.
- Control your vehicle's 12-volt accessories with the Garmin PowerSwitch™ digital switch box (sold separately).

Preloaded with the mapping you need:

- Turn-by-turn trail navigation¹ guides you over unpaved roads and trails.
- Topographic maps with 3D terrain are just the start. Get U.S. public and private landowner information, and enjoy adventure roads and trails map content comprised of OpenStreetMap™ and USFS Motor Vehicle Use Maps.
- Downloadable, high-resolution BirdsEye Satellite imagery shows vivid aerial views of terrain and your surroundings (subscription free).
- Preloaded iOverlander™ points of interest and Ultimate Public Campgrounds let you route to the best-established, wild and dispersed campsites without needing a cell signal.
- Custom street routing⁴ for the size and weight of your vehicle.
