

# Maeve Reilly's **CLOSET REFRESH**

**tips**

inspired by this season's hottest trends

A season change is the perfect time to update your closet and spend time reviewing what you want to keep and think about what still feels on-trend.

## PREP & SORT:

Start off by pulling clothes out of the closet and sorting into three piles: **Keep, Upcycle, and Donate**. Preparing in this way helps figure out, from classic to trendy, which pieces every person should have in their closet.

## WHITE BUTTON DOWN:

A timeless piece that never goes out of style, but over time can become dingy. Pre-soak in **OxiClean™ White Revive™** laundry booster, a white shirt's great friend to help keep it looking like new. (Button-down shirts may not be your thing, OxiClean™ White Revive laundry booster also does the job on white tees – and everyone loves a white t-shirt).

## VINTAGE TEES:

These worn-in "go-to" shirts only get better with time. Don't let stains keep you from buying these from your favorite thrift store. Try **OxiClean™ Max Force™ Spray** to help get tough everyday stains out. You can literally spray it and forget it for up to a week until you are ready to wash. I love this stain remover because I know my clothes will soon look fresh and like-new.

## HAND-ME-DOWNS:

Nothing gets me more excited than wearing a piece that has sentimental value. But often, those hidden gems have been stored away and can smell old and stale. To help remove smells from your clothes, use **OxiClean™ Odor Blasters™ Powder or Liquid**. It gets rid of those odors and leaves your clothes smelling clean and fresh.

## CLASSIC DENIM JACKET:

Everyone has that once loved jean jacket that now has a grass stain from your last outdoor concert (pre-COVID!). Rather than throwing it away, use **OxiClean™ Versatile Stain Remover** to tackle the stain. Your wallet and the landfill will thank you too!
