

# Activate your vision for a healthier world

Drive better patient outcomes at the population level and succeed in value-based care with Innovaccer’s Population Health Management solution. Integrate data from multiple sources, identify care gaps, coordinate care teams, control costs, track utilization, and engage patients with community resources—all from a single data platform.

Powered by the Innovaccer® Health Cloud, our Population Health Management solution provides easy access to robust data and improves coordination between care teams and community resources to support true value-based care.

Innovaccer’s Data Activation Platform facilitates healthcare delivery across populations. Using integrated data with customizable interfaces, it provides a whole-person view to improve health outcomes and reduce care costs at scale. Advanced healthcare analytics, machine learning, and superior workflows help you enhance your population health goals.

## Customer wins

### CHES Health Solutions

23% reduction in 30-day readmissions

\$3+ million in generated value

### Elevate Health

\$6 million in costs saved

13% increase in referral success rates

### Banner Health

\$4 million in costs saved

70% reduction in IT infrastructure costs

### Access performance analytics

Track care-gap closure, measure cost, quality, and patient experiences and monitor physician performance to reach your network goals

### Address SDoH

Inform patients about community resources and enable seamless coordination and referrals

### Reduce network leakage

Identify effective patient cohorts, deploy automated campaigns, and track campaign performance metrics to make impactful decisions and reduce network leakage

### Access unified patient records

Build unified patient records from multiple healthcare data sources to provide a whole-person patient view

### Deliver true patient-centered care

Personalize treatments, track care from start to finish, and close care gaps

# A complete PHM solution for true value-based care

## Data integration and population health analytics

- Access consolidated records for holistic patient views
- Enable superior workflows with useful insights
- Improve efficiency of care delivery

## Integrated care management

- Track and analyze performance of care delivery
- Automate worklists and get real-time ADT feeds
- Enable medication adherence workflows

## Provider-facing interfaces

- Access patient-centered insights, track care gaps, and measure efficiency
- Uncover social factors affecting outcomes to identify high-risk patients
- Collaborate with care team members and move from insight to action

## 360-degree patient engagement

- Increase appointment and medication adherence
- Enable personalized care with our HIPAA-compliant mobile app
- Track campaign performance and reduce network leakage

## About Innovaccer

Innovaccer Inc., the Health Cloud company, is dedicated to accelerating innovation in healthcare. The Innovaccer® Health Cloud unifies patient data across systems and care settings, and empowers healthcare organizations to develop scalable, modern applications that improve clinical, financial, and operational outcomes. Innovaccer's solutions have been deployed across more than 1,600 care settings in the U.S., enabling more than 96,000 providers to transform care delivery and work collaboratively with payers and life sciences companies. Innovaccer has helped its customers unify health records for more than 39 million people and generate over \$1B in cumulative cost savings. Innovaccer is the #1 rated Data and Analytics Platform by KLAS, and the #1 rated population health technology platform by Black Book.
