

# The Modern Store by Zebra

Retailers have already done quite a bit to address labor shortages, supply chain disruptions and changing consumer expectations. Now's the time for them to take these efforts and store operations to a new level.

The Modern Store by Zebra is the framework to propel retailers forward today and in the future by solving their most pressing challenges—engaging associates, optimizing inventory and elevating the customer experience.

Note: Actual performance may vary depending on, among other things, store environment, product mix and process adherence.
