

BMS Health Equity Grants Target Social Determinants of Health

The grants focus on
four therapeutic areas:

Cardiovascular
Disease (CVD)

Hematology

Immunology

Oncology

As part of Bristol Myers Squibb's
Global Diversity, Inclusion and
Health Equity Commitments,
we are granting

\$10M

to 17 US organizations that
meaningfully impact medically
underserved populations, reduce
health disparities and address
social determinants of health.

5-year, \$150M

investment started in 2020 to address
health disparities, increase **clinical
trial diversity**, expand **supplier diversity**,
increase **workforce representation** and
enhance employee giving in support of
social justice organizations.

Goals for the Grants

Reduce access-to-care
barriers in patient
treatment

Bolster community
outreach and education,
patient support and
care coordination, and
collaboration between
healthcare workers
and patients

Foster diversity in the
community health care
worker and patient
navigator workforce

Support community
health care workers and
patient navigators with
training and service
delivery programs

Leverage experts in
healthcare navigation and
members of the patient
community to ensure
equitable access care

Address societal and
economic conditions that
make up negative social
determinants of health
