

38%

of Travelers Boat & Yacht claims were the result of collisions.

19%

of claims were due to damage from severe weather events.

11%

of claims were due to a mechanical breakdown.

GET ON BOARD WITH BOATING SAFETY

Always **stay alert and aware of your surroundings** when operating a watercraft.

Familiarize yourself with your boat’s navigation and safety equipment, and always navigate within marked channels.

Monitor your local weather and create a storm preparedness plan you can enact in the event of a tropical storm, hurricane or other inclement weather in your area.

If a storm or severe weather event appears imminent, **haul your boat out of the water**.

Make sure your vessel is shipshape by having it **professionally inspected at the start of every season** and making any necessary repairs.

If you don’t currently have a boat or yacht insurance policy, **reach out to your insurance agent to get the right coverage**. If you do have a policy, conduct an annual review with your agent to ensure you have the appropriate protections in place before you hit the water.
