

KARRIKAID

Liquid Nutrient Enhancer

Contains smoke-derived karrikin molecules that enhance seed germination and promote robust plant growth.

Description

Karrikaid is a unique blend of organic acids and micronized biochar that contain Karrikin molecules that have been shown to accelerate seed germination and help enhance plant growth.

Safety Directions

Keep out of reach of children. Do NOT swallow. Avoid contact with skin and eyes. Wash hands after use. Wear gloves, long sleeves, and glasses. If ingested contact a doctor or poison control center. If in eyes, hold them open and flush with water for 15 minutes and see a doctor.

CONTAINS NONPLANT FOOD INGREDIENT

A proprietary mix of water, pyroligneous acid, and micronized biochar derived from pistachio shells
