# AT THE TOUCH OF A BUTTON
SWITCH AND SHARE CONNECTED DISPLAYS AND ACCESSORIES BETWEEN 2 SYSTEMS

## DESKTOP EXPANSION

Powered by DisplayLink and DP Alt mode USB-C technology transforming your system into a workstation. With a single USB-C cable to the host system connect up to 3 x 4K UHD displays, transfer data up to 10Gbps, charge your devices and add wired ethernet all from a single port.

## ENHANCED MULTI-SYSTEM FLEXIBILITY

With its dual system KVM feature, the VT4950 enhances the flexibility of a multi-system setup by eliminating the need for additional ports, cable rearrangement, or separate hubs. Easily switch and share displays as well as connected accessories from one system to another while keeping everything in its place with the VT4950. Transfer files easily between systems without the need of external storage.

## CHARGE YOUR DEVICES

Up to 100W Power Delivery to both connected host systems with the included 230W power supply. Charge your mobile devices up to 7.5W on the front USB-A or USB-C ports.

## UNIVERSAL COMPATIBILITY

Works with Windows, macOS or ChromeOS. Install the latest DisplayLink USB Graphics drivers and the included KVM Link software to expand, switch and share displays and accessories.

## KEY FEATURES

- USB-C system compatibility via DisplayLink + DP Alt Mode
- Switch and share connected displays and accessories between 2 systems at the touch of a button
- Easily transfer files between systems
- Triple 4K display support
- 100W Power Delivery to both systems through the included power supply
- USB-C and USB-A ports allow connection of external storage and peripherals

## CONTENTS

VT4950 USB-C KVM Dock
Power Supply 230W - DV20V / 11.5A
