Trustmark Corporation Announces Second Quarter 2024 Financial Results

Completed Significant Actions to Increase Earnings, Enhance Profitability Profile, Reduce Risk, and Strengthen Capital Flexibility

JACKSON, Miss. – July 23, 2024 – Trustmark Corporation (NASDAQGS:TRMK) announced second quarter financial results which reflect the previously disclosed sale of Fisher Brown Bottrell Insurance, Inc. (FBBI). As such, second quarter financial results consist of both continuing operations and discontinued operations. The discontinued operations include the financial results of FBBI prior to the sale as well as the gain on sale in the second quarter. The discontinued operations results are presented as a single line item below income from continuing operations in the accompanying tables for all periods presented. Financial results from adjusted continuing operations exclude significant non-routine transactions⁽¹⁾. Trustmark reported net income of \$73.8 million in the second quarter of 2024, representing diluted earnings per share of \$1.20 and net income from adjusted continuing operations⁽¹⁾ of \$40.5 million, or \$0.66 per diluted share.

The Board of Directors declared a quarterly cash dividend of \$0.23 per share payable September 15, 2024, to shareholders of record on September 1, 2024.

Significant Non-Routine Transactions in the Second Quarter

- Completed sale of FBBI, producing a gain on sale of \$228.3 million (\$171.2 million, net of taxes)
- Restructured investment securities portfolio; sold available for sale securities of \$1.6 billion with an average yield of 1.36%, which generated a loss of \$182.8 million (\$137.1 million, net of taxes); purchased \$1.4 billion of available for sale securities with an average yield of 4.85%
- Sold a portfolio of 1-4 family mortgage loans that were three payments delinquent and/or nonaccrual at time of selection totaling \$56.2 million (Mortgage Loan Sale) which generated a loss of \$13.4 million (\$10.1 million, net of taxes); sale drove a \$54.1 million reduction in nonperforming loans
- Exchanged Visa Class B-1 shares for Visa Class B-2 shares and Visa Class C common stock; Visa Class C stock exchange resulted in a gain of \$8.1 million (\$6.0 million, net of taxes)

Second Quarter Highlights

- Loans held for investment (HFI) increased \$97.5 million, or 0.7%, from the prior quarter to \$13.2 billion; excluding the Mortgage Loan Sale, loans HFI increased \$152.4 million, or 1.2%, linked-quarter
- Deposits expanded \$124.3 million, or 0.8%, linked-quarter to \$15.5 billion
- Net interest income (FTE) increased \$8.1 million, or 6.0%, linked-quarter to \$144.3 million, resulting in a net interest margin of 3.38%, up 17 basis points from the prior quarter
- Noninterest expense totaled \$118.3 million, down \$1.3 million, or 1.1%, linked-quarter
- Tangible equity to tangible assets ratio increased 105 basis points to 8.52% at June 30, 2024
- Tangible book value per share increased \$3.20, or 14.5%, to \$25.23 at June 30, 2024

Duane A. Dewey, President and CEO, stated, "The second quarter of 2024 was an extremely productive quarter for Trustmark. We closed the previously announced sale of our insurance agency and completed significant balance sheet restructuring to position the company for improved operating performance into the second half of the year and beyond. While completing these non-recurring events, we also performed well in our core banking franchise with continued loan growth, deposit growth, solid fee income and disciplined expense management. The commitment and dedication of our associates across the organization to successfully meet our clients' financial needs and execute the one-time projects are outstanding, and we believe the company is very well positioned for future opportunities."

Balance Sheet Management

- Loans HFI totaled \$13.2 billion, up 0.7% from the prior quarter and 4.3% year-over-year
- Deposits totaled \$15.5 billion, up 0.8% from the previous quarter and 3.7% year-over-year
- Enhanced strong capital position with CET1 ratio of 10.92% and total risk-based capital ratio of 13.29%

Loans HFI totaled \$13.2 billion at June 30, 2024, reflecting an increase of \$97.5 million, or 0.7%, linked-quarter and \$541.5 million, or 4.3%, year-over-year. The linked quarter growth reflected increases in construction, development and other land loans, loans secured by nonfarm, nonresidential properties, and other loans and leases offset in part by declines in commercial and industrial loans, other real estate secured loans, and 1-4 family mortgage loans. Trustmark's loan portfolio continues to be well-diversified by loan type and geography.

Deposits totaled \$15.5 billion at June 30, 2024, up \$124.3 million, or 0.8%, from the prior quarter and \$549.0 million, or 3.7%, year-over-year. Trustmark continues to maintain a strong liquidity position as loans HFI represented 85.1% of total deposits at June 30, 2024. Noninterest-bearing deposits represented 20.4% of total deposits at June 30, 2024, compared to 19.8% at March 31, 2024. The cost of interest-bearing deposits increased 1 basis point to 2.75% for the second quarter, while the cost of total deposits was 2.18%, unchanged from the prior quarter. The total cost of interest-bearing liabilities was 2.95% for the second quarter, up 3 basis points linked-quarter.

During the second quarter, Trustmark did not repurchase any of its outstanding common shares. As previously announced, Trustmark's Board of Directors authorized a stock repurchase program effective January 1, 2024, under which \$50.0 million of Trustmark's outstanding shares may be acquired through December 31, 2024. As of June 30, 2024, Trustmark had not repurchased any of its outstanding common shares under this program. At June 30, 2024, Trustmark's tangible equity to tangible assets ratio was 8.52%, up 105 basis points from the prior quarter, while the total risk-based capital ratio was 13.29%, up 87 basis points from the prior quarter. Tangible book value per share was \$25.23 at June 30, 2024, an increase of 14.5% from the prior quarter and 24.7% from the prior year.

Credit Quality

- Nonaccrual loans declined 55.0% linked-quarter to \$44.3 million, driven by the Mortgage Loan Sale
- Net charge-offs totaled \$11.6 million for the second quarter; excluding the Mortgage Loan Sale, net charge-offs totaled \$3.0 million and represented 0.09% of average loans
- Allowance for credit losses (ACL) represented 1.18% of loans HFI and 840.20% of nonaccrual loans HFI, excluding individually analyzed loans, at June 30, 2024

Nonaccrual loans totaled \$44.3 million at June 30, 2024, down \$54.1 million from the prior quarter and \$30.7 million year-over-year. Other real estate totaled \$6.6 million, reflecting a decrease of \$1.0 million from the prior quarter and an increase of \$5.4 million from the prior year. Collectively, nonperforming assets totaled \$50.9 million at June 30, 2024, down \$55.1 million, or 52.0%, from the prior quarter and \$25.3 million, or 33.2%, from the prior year.

The total provision for credit losses for loans HFI was \$23.3 million in the second quarter. Excluding the Mortgage Loan Sale, the provision for credit losses for loans HFI was \$14.7 million and was primarily attributable to credit migration. The provision for credit losses for off-balance sheet credit exposures was a negative \$3.6 million, primarily driven by decreases in unfunded commitments. Collectively, the provision for credit losses, excluding the Mortgage Loan Sale, totaled \$11.1 million in the second quarter compared to \$7.5 million from the prior quarter and \$8.5 million in the second quarter of 2023.

Allocation of Trustmark's \$154.7 million ACL on loans HFI represented 1.05% of commercial loans and 1.59% of consumer and home mortgage loans, resulting in an ACL to total loans HFI of 1.18% at June 30, 2024. Management believes the level of the ACL is commensurate with the credit losses currently expected in the loan portfolio.

Revenue Generation

- Net interest income (FTE) totaled \$144.3 million in the second quarter, up 6.0% linked-quarter
- GAAP noninterest income was negative \$141.3 million in the second quarter while noninterest income from adjusted continuing operations⁽¹⁾ totaled \$38.2 million and represented 21.3% of total revenue from adjusted continuing operations⁽¹⁾
- GAAP revenue was negative \$0.3 million in the second quarter while revenue from adjusted continuing operations⁽¹⁾ totaled \$179.3 million, up \$7.1 million, or 4.1%, linked-quarter

Revenue from adjusted continuing operations⁽¹⁾ in the second quarter totaled \$179.3 million, an increase of \$7.1 million, or 4.1%, from the prior quarter and \$1.5 million, or 0.9%, from the same quarter in the prior year. The linked-quarter increase primarily reflects higher net interest income and solid growth in bank card and other fees and wealth management revenue.

Net interest income (FTE) in the second quarter totaled \$144.3 million, resulting in a net interest margin of 3.38%, up 17 basis points from the prior quarter. The increase in the net interest margin was primarily due to increased yields on the securities portfolio and the loans HFI and held for sale portfolio as well as the costs of interest-bearing deposits remaining relatively flat.

Noninterest income from adjusted continuing operations⁽¹⁾ in the second quarter totaled \$38.2 million, a decrease of \$1.1 million, or 2.8%, from the prior quarter and an increase of \$0.4 million, or 1.1%, year-over-year. Bank card and other fees totaled \$9.2 million in the second quarter, up \$1.8 million, or 24.2%, linked-quarter and \$0.3 million, or 3.5%, year-over-year. The linked-quarter increase reflects expanded customer derivative revenue, interchange revenue, and miscellaneous other revenue. Service charges on deposit accounts totaled \$10.9 million in the second quarter, relatively unchanged from the prior quarter and up \$0.2 million, or 2.1%, year-over-year. Other, net totaled \$7.5 million, up \$4.4 million linked-quarter as the \$8.1 million gain from Visa C exchange was offset in part by the \$4.8 million in noncredit-related loss from the Mortgage Loan Sale. Other, net from adjusted continuing operations⁽¹⁾ totaled \$4.2 million, an increase of \$1.1 million, or 35.5%, from the prior quarter.

Mortgage loan production in the second quarter totaled \$379.5 million, an increase of 38.5% from the prior quarter and a decrease of 12.0% year-over-year. Mortgage banking revenue totaled \$4.2 million in the second quarter, a decrease of \$4.7 million linked-quarter and \$2.4 million year-over-year. The linked-quarter decrease was principally attributable to increased net negative hedge ineffectiveness, which was driven by a higher assumed discount rate on servicing cash flows.

Wealth management revenue in the second quarter totaled \$9.7 million, an increase of \$0.7 million, or 8.3%, from the prior quarter and \$0.8 million, or 9.1%, year-over-year. The linked-quarter growth reflected increased investment services and trust management revenue while the year-over-year increase reflected expanded brokerage revenue.

Noninterest Expense

- Noninterest expense declined \$1.3 million, or 1.1%, linked-quarter
- Salary and employee benefit expense declined \$0.6 million, or 1.0%, linked-quarter

Noninterest expense in the second quarter totaled \$118.3 million, a decrease of \$1.3 million, or 1.1%, when compared to the prior quarter. Salaries and employee benefits expense decreased \$0.6 million, or 1.0%, linked-quarter principally due to reduced compensation expense and the seasonal decline in payroll taxes, which were partially offset by increased commission expense. Other expense declined \$0.9 million, or 5.6%, linked-quarter.

⁽¹⁾ Adjusted continuing operations excludes significant non-routine transactions. See Note 7 - Non-GAAP Financials Measures in the Notes to the Consolidated Financials.

⁽²⁾ See Note 7 – Non-GAAP Financial Measures in the Notes to Consolidated Financials for Trustmark's efficiency ratio calculation.

Note 1 - Significant Non-Routine Transactions

Trustmark completed the following significant non-routine transactions during the second quarter of 2024:

- On May 31, 2024, Trustmark National Bank closed the sale of its wholly owned subsidiary, Fisher Brown Bottrell Insurance, Inc., (FBBI) to Marsh & McLennan Agency LLC, consistent with the terms as previously announced on April 23, 2024. Trustmark National Bank is a wholly owned subsidiary of Trustmark Corporation. Trustmark recognized a gain on the sale of \$228.3 million (\$171.2 million, net of taxes) in income from discontinued operations. The operations of FBBI are also included in discontinued operations for the current and prior periods.
- Trustmark restructured its investment securities portfolio by selling \$1.561 billion of available for sale securities with an average yield of 1.36%, which generated a loss of \$182.8 million (\$137.1 million, net of taxes) and was recorded to noninterest income in securities gains (losses), net. Trustmark purchased \$1.378 billion of available for sale securities with an average yield of 4.85%.
- Trustmark sold a portfolio of 1-4 family mortgage loans that were three payments delinquent and/or nonaccrual at the time of selection totaling \$56.2 million, which resulted in a loss of \$13.4 million (\$10.1 million, net of taxes). The portion of the loss related to credit totaled \$8.6 million and was recorded as adjustments to charge-offs and the provision for credit losses. The noncredit-related portion of the loss totaled \$4.8 million and was recorded to noninterest income in other, net.
- On April 8, 2024, Visa commenced an initial exchange offer expiring on May 3, 2024, for any and all outstanding shares of Visa Class B-1 common stock (Visa B-1 shares). Holders participating in the exchange offer would receive a combination of Visa Class B-2 common stock (Visa B-2 shares) and Visa Class C common stock (Visa C shares) in exchange for Visa B-1 shares that are validly tendered and accepted for exchange by Visa. TNB tendered its 38.7 thousand Visa B-1 shares, which was accepted by Visa. In exchange for each Visa B-1 share that was validly tendered and accepted for exchange by Visa, TNB received 50.0% of a newly issued Visa B-2 share and newly issued Visa C shares equivalent in value to 50.0% of a Visa B-1 share. The Visa C shares that were received by TNB were recognized at fair value, which resulted in a gain of \$8.1 million (\$6.0 million, net of taxes) and recorded to noninterest income in other, net during the second quarter of 2024. The Visa B-2 shares were recorded at their nominal carrying value.

At June 30, 2024, the net unamortized, unrealized loss included in accumulated other comprehensive income (loss) in the accompanying balance sheet for securities held to maturity transferred from securities available for sale totaled \$52.1 million.

Management continues to focus on asset quality as one of the strategic goals of the securities portfolio, which is evidenced by the investment of 100.0% of the portfolio in U.S. Treasury securities, GSE-backed obligations and other Aaa rated securities as determined by Moody's. None of the securities owned by Trustmark are collateralized by assets which are considered sub-prime. Furthermore, outside of stock ownership in the Federal Home Loan Bank of Dallas and Federal Reserve Bank, Trustmark does not hold any other equity investment in a GSE.

Note 4 - Yields on Earning Assets and Interest-Bearing Liabilities (continued)

Reflected in the table above are yields on earning assets and liabilities, along with the net interest margin which equals reported net interest income-FTE, annualized, as a percent of average earning assets.

The net interest margin increased 17 basis points when compared to the first quarter of 2024, totaling 3.38% for the second quarter of 2024, primarily due to increased yields on the securities portfolio and the loans held for investment and held for sale portfolio as well as the costs of interest-bearing deposits remaining relatively flat.

Note 5 - Mortgage Banking

Trustmark utilizes a portfolio of exchange-traded derivative instruments, such as Treasury note futures contracts and option contracts, to achieve a fair value return that offsets the changes in fair value of mortgage servicing rights (MSR) attributable to interest rates. These transactions are considered freestanding derivatives that do not otherwise qualify for hedge accounting under generally accepted accounting principles (GAAP). Changes in the fair value of these exchange-traded derivative instruments, including administrative costs, are recorded in noninterest income in mortgage banking, net and are offset by the changes in the fair value of the MSR. The MSR fair value represents the present value of future cash flows, which among other things includes decay and the effect of changes in interest rates. Ineffectiveness of hedging the MSR fair value is measured by comparing the change in value of hedge instruments to the change in the fair value of the MSR asset attributable to changes in interest rates and other market driven changes in valuation inputs and assumptions. The impact of this strategy resulted in a net negative hedge ineffectiveness of \$4.5 million during the second quarter of 2024.

The following table illustrates the components of mortgage banking revenues included in noninterest income in the accompanying income statements:

Trustmark invests in partnerships that provide income tax credits on a Federal and/or State basis (i.e., new market tax credits, low-income housing tax credits and historical tax credits). The income tax credits related to these partnerships are utilized as specifically allowed by income tax law and are recorded as a reduction in income tax expense.

Note 7 - Non-GAAP Financial Measures

In addition to capital ratios defined by GAAP and banking regulators, Trustmark utilizes various tangible common equity measures when evaluating capital utilization and adequacy. Tangible common equity, as defined by Trustmark, represents common equity less goodwill and identifiable intangible assets. Trustmark's Common Equity Tier 1 capital includes common stock, capital surplus and retained earnings, and is reduced by goodwill and other intangible assets, net of associated net deferred tax liabilities as well as disallowed deferred tax assets and threshold deductions as applicable.

Trustmark believes these measures are important because they reflect the level of capital available to withstand unexpected market conditions. Additionally, presentation of these measures allows readers to compare certain aspects of Trustmark's capitalization to other organizations. These ratios differ from capital measures defined by banking regulators principally in that the numerator excludes shareholders' equity associated with preferred securities, the nature and extent of which varies across organizations. In Management's experience, many stock analysts use tangible common equity measures in conjunction with more traditional bank capital ratios to compare capital adequacy of banking organizations with significant amounts of goodwill or other intangible assets, typically stemming from the use of the purchase accounting method in accounting for mergers and acquisitions.

These calculations are intended to complement the capital ratios defined by GAAP and banking regulators. Because GAAP does not include these capital ratio measures, Trustmark believes there are no comparable GAAP financial measures to these tangible common equity ratios. Despite the importance of these measures to Trustmark, there are no standardized definitions for them and, as a result, Trustmark's calculations may not be comparable with other organizations. Also, there may be limits in the usefulness of these measures to investors. As a result, Trustmark encourages readers to consider its audited consolidated financial statements and the notes related thereto in their entirety and not to rely on any single financial measure.

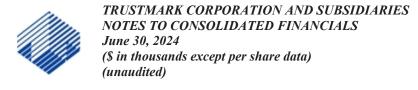

Note 7 - Non-GAAP Financial Measures (continued)

Trustmark discloses certain non-GAAP financial measures because Management uses these measures for business planning purposes, including to manage Trustmark's business against internal projected results of operations and to measure Trustmark's performance. Trustmark views these as measures of our core operating business, which exclude the impact of the items detailed below, as these items are generally not operational in nature. These non-GAAP financial measures also provide another basis for comparing period-to-period results as presented in the accompanying selected financial data table and the audited consolidated financial statements by excluding potential differences caused by non-operational and unusual or non-recurring items. Readers are cautioned that these adjustments are not permitted under GAAP. Trustmark encourages readers to consider its consolidated financial statements and the notes related thereto in their entirety, and not to rely on any single financial measure.
