# Diversified Healthcare Trust Announces Fourth Quarter 2024 Financial Results

"DHC ended the fourth quarter by reaching 80% SHOP occupancy for the first time since the first quarter of 2020. On a year-over-year basis, DHC achieved a 56% improvement in SHOP NOI, a 7.3% increase in SHOP revenues and a 6.7% improvement in average monthly rate, resulting in margin expansion of 250 basis points. We are pleased with the results achieved and remain bullish on the outlook within the sector and our SHOP portfolio going into 2025.

Over the recent quarters, we have advanced several initiatives to effectively manage our upcoming debt maturities due in 2025 and 2026. These efforts are bolstered by \$340 million in anticipated mortgage loan proceeds primarily from signed term sheets, progress on our disposition strategy, with \$26 million in proceeds from sales of unencumbered assets since October 1st, and \$77 million of potential proceeds from sales of additional unencumbered assets currently under agreements or letters of intent. Furthermore, our cash balance was \$145 million at year end. We have also started to address our January 2026 debt maturities by generating \$159 million in proceeds from the January 2025 sale of MUSE and \$142 million in proceeds from 19 properties which are under agreements to sell and expected to close in the first quarter. These sales represent an expected 25% premium over the allocated fair values of these properties."

# Company Profile and Research Coverage

#### The Company:

DHC is a REIT focused on owning high-quality healthcare properties located throughout the United States. DHC seeks diversification across the health services spectrum by care delivery and practice type, by scientific research disciplines and by property type and location. As of December 31, 2024, DHC's approximately \$7.2 billion portfolio included 367 properties in 36 states and Washington, D.C., occupied by approximately 450 tenants, and totaling approximately 8.0 million square feet of medical office and life science properties and more than 27,000 senior living units.

#### **Management:**

DHC is managed by The RMR Group (Nasdaq: RMR). RMR is an alternative asset management company that is focused on commercial real estate and related businesses. RMR primarily provides management services to publicly traded real estate companies, privately held real estate funds and real estate related operating businesses. As of December 31, 2024, RMR had over \$40 billion of real estate assets under management and the combined RMR managed companies had more than \$5 billion of annual revenues, approximately 2,000 properties and over 18,000 employees. DHC believes that being managed by RMR is a competitive advantage for DHC because of RMR's depth of management and experience in the real estate industry. DHC also believes RMR provides management services to it at costs that are lower than DHC would have to pay for similar quality services if DHC were selfmanaged.

### Non-GAAP Financial Measures and Certain Definitions

#### **Non-GAAP Financial Measures**

DHC presents certain "non-GAAP financial measures" within the meaning of applicable rules of the Securities and Exchange Commission, or SEC, including net operating income, or NOI, Cash Basis NOI, same property Cash Basis NOI, earnings before interest, income tax, depreciation and amortization, or EBITDA for real estate, or EBITDAre, Adjusted EBITDAre, funds from operations, or FFO, normalized funds from operations, or Normalized FFO, and cash available for distribution, or CAD. These measures do not represent cash generated by operating activities in accordance with GAAP and should not be considered alternatives to net income (loss) as indicators of DHC's operating performance or as measures of DHC's liquidity. These measures should be considered in conjunction with net income (loss) as presented in DHC's consolidated statements of income (loss). DHC considers these non-GAAP measures to be appropriate supplemental measures of operating performance for a REIT, along with net income (loss). DHC believes these measures provide useful information to investors because by excluding the effects of certain historical amounts, such as depreciation and amortization, they may facilitate a comparison of DHC's operating performance between periods and with other REITs and, in the case of NOI, Cash Basis NOI, same property NOI and same property Cash Basis NOI, reflecting only those income and expense items that are generated and incurred at the property level may help both investors and management to understand the operations of DHC's properties.

#### NOI, Cash Basis NOI, Same Property NOI and Same Property Cash Basis NOI

The calculations of NOI, Cash Basis NOI, same property NOI and same property Cash Basis NOI exclude certain components of net income (loss) in order to provide results that are more closely related to DHC's property level results of operations. DHC calculates NOI, Cash Basis NOI, same property NOI and same property Cash Basis NOI as shown on pages 32 and 33. DHC defines NOI as income from its real estate less its property operating expenses. NOI excludes depreciation and amortization. DHC defines Cash Basis NOI as NOI excluding non-cash straight line rent adjustments, lease value amortization, lease termination fees, if any, and non-cash amortization included in property operating expenses. DHC calculates same property NOI and same property Cash Basis NOI in the same manner that it calculates the corresponding NOI and Cash Basis NOI amounts, except that it only includes same properties in calculating same property NOI and same property Cash Basis NOI, same property level performance. Other real estate companies and REITs may calculate NOI, Cash Basis NOI, same property Cash Basis NOI differently than DHC does.

#### EBITDA, EBITDAre and Adjusted EBITDAre

DHC calculates EBITDA, EBITDAre and Adjusted EBITDAre as shown on page 34. EBITDAre is calculated on the basis defined by the National Association of Real Estate Investment Trusts, or Nareit, which is EBITDA, excluding gains or losses on the sale of properties, equity in net earnings or losses of investees, impairment of real estate assets, if any, and including adjustments to reflect DHC's proportionate share of EBITDAre of DHC's equity method investees, as well as certain other adjustments currently not applicable to DHC. In calculating Adjusted EBITDAre, DHC adjusts for the items shown on page 34 and includes business management incentive fees, if any, only in the fourth quarter versus the quarter when they are recognized as an expense in accordance with GAAP due to their quarterly volatility not necessarily being indicative of DHC's core operating performance and the uncertainty as to whether any such business management incentive fees will be payable when all contingencies for determining such fees are known at the end of the calendar year. Other real estate companies and REITs may calculate EBITDA, EBITDAre and Adjusted EBITDAre differently than DHC does.

#### **FFO and Normalized FFO**

DHC calculates FFO and Normalized FFO as shown on page 35. FFO is calculated on the basis defined by Nareit, which is net income (loss), calculated in accordance with GAAP, excluding any gain or loss on sale of properties, equity in net earnings or losses of investees, loss on impairment of real estate assets, gains or losses on equity securities, net, if any, and including adjustments to reflect DHC's proportionate share of FFO of DHC's equity method investees, plus real estate depreciation and amortization of consolidated properties, as well as certain other adjustments currently not applicable to DHC. In calculating Normalized FFO, DHC adjusts for the items shown on page 35, including similar adjustments for DHC's unconsolidated joint ventures, if any, and include business management incentive fees, if any, only in the fourth quarter versus the quarter when they are recognized as an expense in accordance with GAAP due to their quarterly volatility not necessarily being indicative of DHC's core operating performance and the uncertainty as to whether any such business management incentive fees will be payable when all contingencies for determining such fees are known at the end of the calendar year. FFO and Normalized FFO are among the factors considered by DHC's Board of Trustees when determining the amount of distributions to its shareholders. Other factors include, but are not limited to, requirements to maintain DHC's qualification for taxation as a REIT, limitations in the agreements governing DHC's debt, the availability to DHC of debt and equity capital, DHC's expectation of its future capital requirements and operating performance and DHC's expected needs for and availability of cash to pay its obligations. Other real estate companies and REITs may calculate FFO and Normalized FFO differently than DHC does.

#### Cash Available for Distribution

DHC calculates CAD as shown on page 36. DHC defines CAD as Normalized FFO minus DHC's proportionate share of Normalized FFO from unconsolidated joint venture properties and its equity method investment, plus operating cash flow distributions received from DHC's unconsolidated joint ventures and equity method investment, if any, recurring real estate related capital expenditures, adjustments for other non-cash and nonrecurring items, certain amounts excluded from Normalized FFO but settled in cash, as well as certain other adjustments currently not applicable to DHC. CAD is among the factors considered by DHC's Board of Trustees when determining the amount of distributions to DHC's shareholders. Other real estate companies and REITs may calculate CAD differently than DHC does.

In calculating net income (loss) in accordance with GAAP, DHC recognizes estimated business management incentive fee expense, if any, in the first, second and third quarters. Although DHC recognizes this expense, if any, in the first, second and third quarters for the purpose of calculating net income (loss), DHC does not include these amounts in the calculation of Normalized FFO or Adjusted EBITDAre until the fourth quarter, when the amount of business management incentive fee expense for the calendar year, if any, is determined.
