Kiosks

Reduce friction with fast, accurate and personalized self-ordering

Drive thru

Shorten waits and improve order accuracy with advanced vision systems, cameras and magnetic loop detectors

Digital menu boards

Captivate guests and easily update menus across all locations in one go

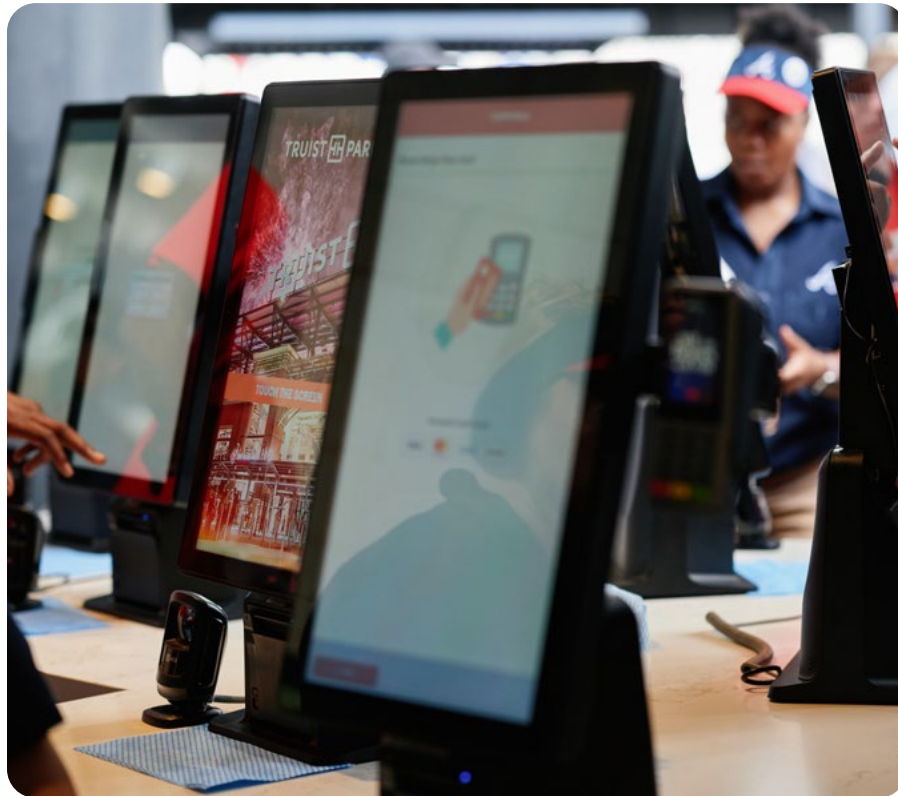

Back office

Manage forecasting, costs, payroll and more from one dashboard

Level up without starting over

Solutions designed to enhance your existing investment?
That's a Genius move.

- ✓ **Take payments with confidence**

Whether you're online, at the counter or in venue, Genius offers a fully integrated payment stack that's secure, flexible and built for enterprise complexity. Supported by Global Payments, you get global reach with local expertise.

- ✓ **Enhance with add-ons**

From loyalty and digital ordering to mobile operations and suite catering, Genius offers modular add-ons that activate new capabilities across your business.

Connect through integrations

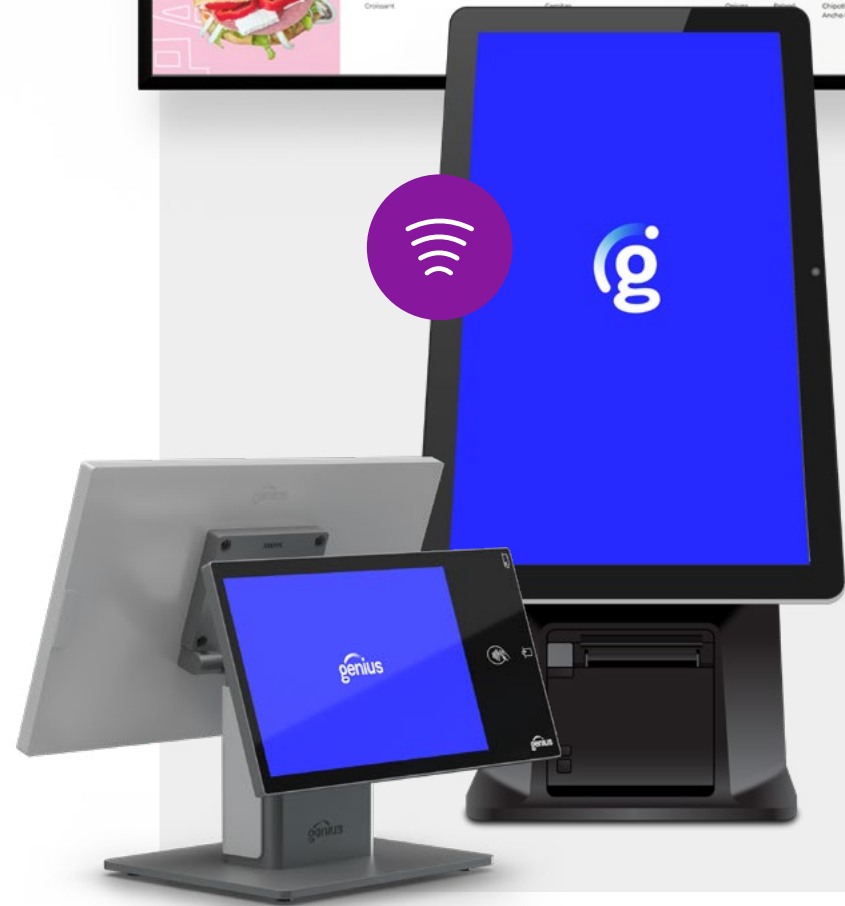

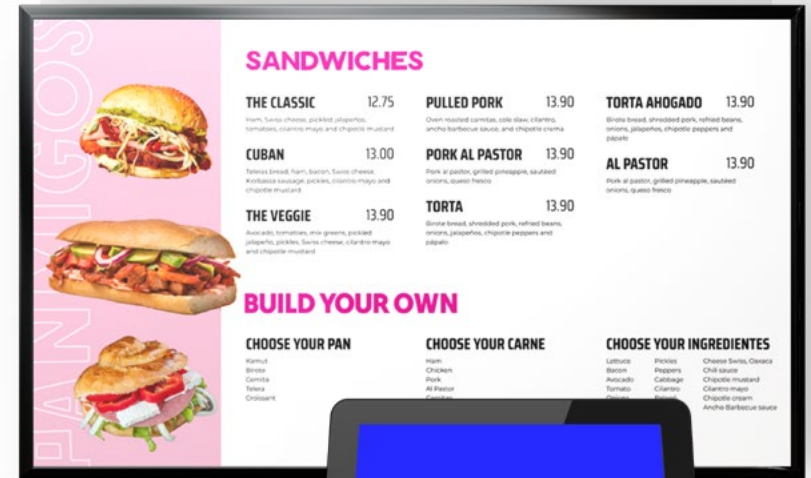

Genius is designed to play well with others. We integrate with 100+ platforms, including POS tools, delivery marketplaces, loyalty engines and back-office systems — so you stay agile and in control.

One platform. Endless flexibility.

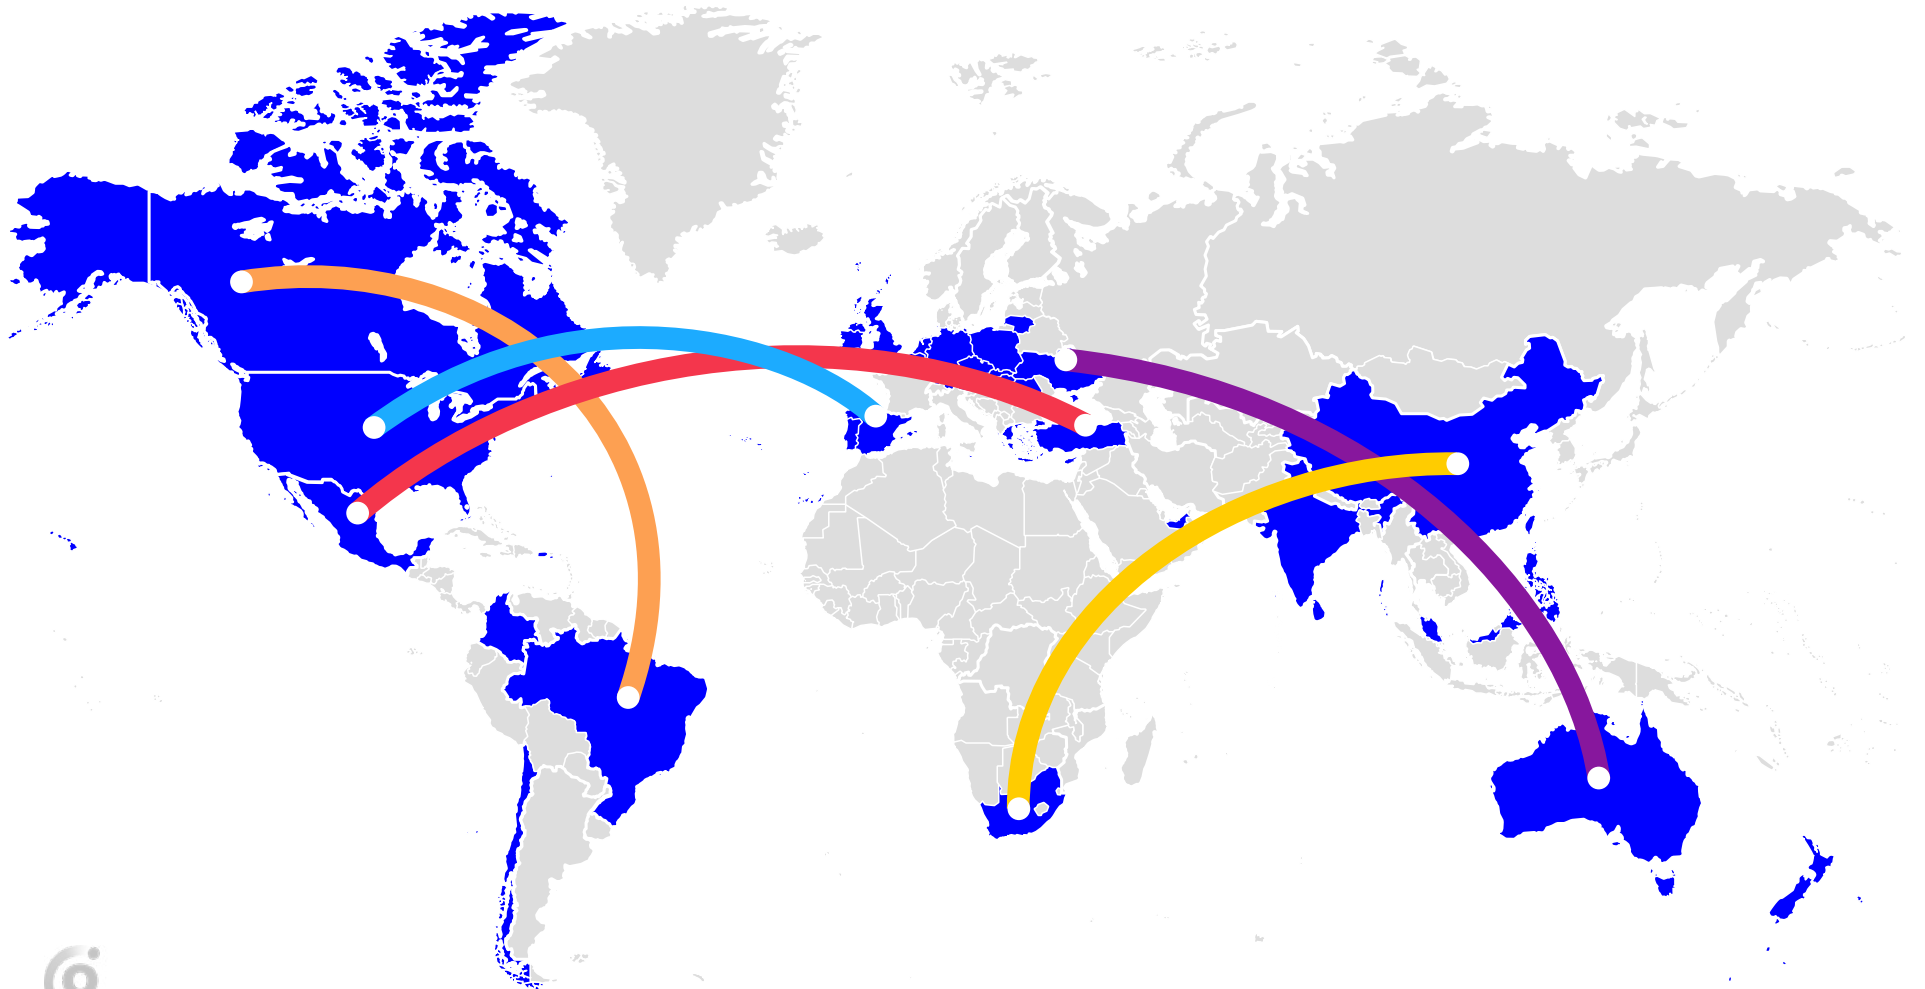

Whether you run 50 locations or 50,000, Genius flexes to your needs. Choose from 100+ integrations or leverage our open APIs to tailor your Genius deployment.

- ✓ **Hardware flexibility**
- ✓ **Cloud-native deployment**
- ✓ **Always-on data sync**
- ✓ **Scalable architecture**

Growth without compromise.

Genius is built to grow with the world's most ambitious brands. Whether you're launching in new markets or expanding across thousands of locations, Genius is designed to move with you — seamlessly, globally and at enterprise scale.

That's Genius.
