***Use of non-GAAP financial measures**

Regions believes that the presentation of non-GAAP financial measures provides a meaningful basis for period-to-period comparisons, which management believes will assist investors in assessing the performance of the Company on the same basis as that applied by management. Non-GAAP financial measures have inherent limitations, are not required to be uniformly applied and are not audited. Although non-GAAP financial measures are frequently used by stakeholders in the evaluation of a company, they have limitations as analytical tools, and should not be considered in isolation, or as a substitute for analyses of results as reported under GAAP. In particular, a measure of earnings that excludes certain adjustments does not represent the amount that effectively accrues directly to shareholders. Additionally, our non-GAAP financial measures may not be comparable to similar non-GAAP financial measures used by other companies and there is no certainty that we will not incur expenses in the future that are similar to those excluded in the calculations on non-GAAP financial measures presented herein.

Net charge-offs as a percentage of average loans				0.53 %	0.47 %

*Annualized

(1) Calculated by dividing net income by average assets.

(2) See reconciliation of these non-GAAP measures to the most directly comparable GAAP measures on pages [13](#), [17](#), [19](#), and [21](#).

(3) Dividend payout ratio reflects dividends declared within the applicable period.

(4) Current quarter Common equity Tier 1 as well as Total risk-weighted assets, Tier 1 capital, Total risk-based capital and Leverage ratios are estimated.

(5) Excludes guaranteed residential first mortgages that are 90+ days past due and still accruing. Refer to the footnotes on page [24](#) for amounts related to these loans.

(1) Amounts have been calculated using whole dollar values and the prevailing interest accrual methodology.

(2) Debt securities are included on an amortized cost basis with yield and net interest margin calculated accordingly.

(3) Interest income includes hedging income of \$5 million for the quarter ended December 31, 2025 and \$7 million for the quarter ended September 30, 2025.

(4) Interest income includes hedging expense of \$44 million for the quarter ended December 31, 2025 and \$58 million for the quarter ended September 30, 2025.

(5) Interest income includes hedging expense of \$6 million for the quarter ended December 31, 2025 and \$7 million for the quarter ended September 30, 2025.

(6) Total deposit costs may be calculated by dividing total interest expense on deposits by the sum of interest-bearing deposits and non-interest-bearing deposits. The rates for total deposit costs equal 1.29% for the quarter ended December 31, 2025 and 1.39% for the quarter ended September 30, 2025.

(1) Amounts have been calculated using whole dollar values and the prevailing interest accrual methodology.

(2) Debt securities are included on an amortized cost basis with yield and net interest margin calculated accordingly.

(3) Interest income includes hedge income of \$6 million for the quarter ended June 30, 2025, \$2 million for the quarter ended March 31, 2025, and zero for the quarter ended December 31, 2024.

(4) Interest income includes hedging expense of \$53 million for the quarter ended June 30, 2025, \$60 million for the quarter ended March 31, 2025 and \$69 million for the quarter ended December 31, 2024.

(5) Interest income includes hedging expense of \$7 million for the quarter ended June 30, 2025, \$7 million for the quarter ended March 31, 2025 and \$8 million for the quarter ended December 31, 2024.

(6) Total deposit costs may be calculated by dividing total interest expense on deposits by the sum of interest-bearing deposits and non-interest-bearing deposits. The rates for total deposit costs equal 1.39% for the quarter ended June 30, 2025, 1.40% for the quarter ended March 31, 2025 and 1.47% for the quarter ended December 31, 2024.

Financial Supplement (unaudited) to Fourth Quarter 2025 Earnings Release
Pre-Tax Pre-Provision Income ("PPI") (non-GAAP) and Adjusted PPI (non-GAAP)

The Pre-Tax Pre-Provision Income tables below present computations of pre-tax pre-provision income excluding certain adjustments (non-GAAP). Regions believes that the presentation of PPI and the exclusion of certain items from PPI provides a meaningful basis for period-to-period comparisons, which management believes will assist investors in analyzing the operating results of the Company and predicting future performance. These non-GAAP financial measures are also used by management to assess the performance of Regions' business. It is possible that the activities related to the adjustments may recur; however, management does not consider the activities related to the adjustments to be indications of ongoing operations.

NM - Not Meaningful

- (1) Capital markets income primarily relates to capital raising activities that includes debt securities underwriting and placement, loan syndication and placement, as well as foreign exchange, derivative and merger and acquisition advisory services.
- (2) These market value adjustments relate to assets held for employee and director benefits that are offset within salaries and employee benefits expense and other non-interest expense.
- (3) Consumer overdraft fees represent approximately half of these amounts each quarter.
- (4) The majority of these amounts relate to Treasury Management (TM) activities and typically represent approximately two-thirds of total TM revenue each quarter.
- (5) Total wealth management income does not include certain smaller dollar amounts that are attributable to the wealth management segment.
- (6) For the purposes of determining the fair value of customer derivatives, the Company considers the risk of nonperformance by counterparties, as well as the Company's own risk of nonperformance. The valuation adjustments above are reflective of the values associated with these considerations.

NM - Not Meaningful

- (1) Capital markets income primarily relates to capital raising activities that includes debt securities underwriting and placement, loan syndication and placement, as well as foreign exchange, derivative and merger and acquisition advisory services.
- (2) These market value adjustments relate to assets held for employee and director benefits that are offset within salaries and employee benefits expense and other non-interest expense.
- (3) Consumer overdraft fees typically represent approximately half of these amounts each reporting period.
- (4) The majority of these amounts relate to Treasury Management (TM), and typically represent approximately two-thirds of Regions' total TM revenue each reporting period.
- (5) Total wealth management income does not include certain smaller dollar amounts that are attributable to the wealth management segment.
- (6) For the purposes of determining the fair value of customer derivatives, the Company considers the risk of nonperformance by counterparties, as well as the Company's own risk of nonperformance. The valuation adjustments above are reflective of the values associated with these considerations.

Reconciliation of GAAP Financial Measures to non-GAAP Financial Measures

Adjusted Efficiency Ratios, Adjusted Fee Income Ratios, Adjusted Non-Interest Income/Expense, Adjusted Operating Leverage Ratios, and Adjusted Total Revenue

The table below presents computations of the efficiency ratio, which is a measure of productivity, generally calculated as non-interest expense divided by total revenue; and the fee income ratio, generally calculated as non-interest income divided by total revenue. Management uses these ratios to monitor performance and believes these measures provide meaningful information to investors. Non-interest expense (GAAP) is presented excluding certain adjustments to arrive at adjusted non-interest expense (non-GAAP), which is the numerator for the adjusted efficiency ratio. Non-interest income (GAAP) is presented excluding certain adjustments to arrive at adjusted non-interest income (non-GAAP), which is the numerator for the adjusted fee income ratio. Net interest income and non-interest income are added together to arrive at total revenue. Adjustments are made to arrive at adjusted total revenue (non-GAAP). Net interest income on a taxable-equivalent basis and non-interest income are added together to arrive at total revenue on a taxable-equivalent basis (GAAP). Adjustments are made to arrive at adjusted total revenue on a taxable-equivalent basis (non-GAAP), which is the denominator for the adjusted fee income and adjusted efficiency ratios. Also presented is a computation of the adjusted operating leverage ratio (non-GAAP), which is the period-to-period percentage change in adjusted total revenue on a taxable-equivalent basis (non-GAAP) less the percentage change in adjusted non-interest expense (non-GAAP).

(1) In the second quarter of 2024, the Company had a contingent reserve release related to a previous acquisition.

(2) Amounts have been calculated using whole dollar values.

Reconciliation of GAAP Financial Measures to non-GAAP Financial Measures

Adjusted Net Income Available to Common Shareholders, Adjusted Diluted EPS, and Return Ratios

The table below provides a reconciliation of net income available to common shareholders (GAAP) to adjusted net income available to common shareholders (non-GAAP), a computation of adjusted diluted EPS (non-GAAP), and calculations of “average tangible common shareholders’ equity” (non-GAAP) and related ratios. Net income available to common shareholders (GAAP) is presented excluding certain adjustments, net of tax, to arrive at adjusted net income available to common shareholders (non-GAAP), which is the numerator for adjusted diluted EPS (non-GAAP). Management uses these ratios to monitor performance and believes these measures provide meaningful information to investors. Average tangible common shareholders’ equity ratios have become a focus of some investors and management believes they may assist investors in analyzing the capital position of the Company absent the effects of intangible assets and preferred stock. Analysts and banking regulators have assessed Regions’ capital adequacy using the average tangible common shareholders’ equity measure. Because average tangible common shareholders’ equity is not formally defined by GAAP or prescribed in any amount by federal banking regulations it is currently considered to be a non-GAAP financial measure and other entities may calculate it differently than Regions’ disclosed calculations. In calculating return on average tangible common shareholders’ equity ratios, Regions makes adjustments to shareholders’ equity including average intangible assets and related deferred taxes, and average preferred stock. Regions also presents an adjusted tangible common shareholder ratio using adjusted net income (non-GAAP) as the numerator. Management uses these metrics to monitor performance and believes these measures provide meaningful information to investors.

NM - Not Meaningful

(1) In the second quarter of 2025, the Company redeemed its Series D preferred stock. The initial issuance costs reduced net income to common shareholders when the shares were redeemed. This is a non-taxable expense.

(2) Unless separately noted, the tax impact for adjustments has been calculated using a nominal tax rate of 25 percent.

(3) Amounts calculated based upon whole dollar values.

(1) Amounts have been calculated using whole dollar values.

Common equity Tier 1 (CET1) Ratios

The following table presents CET1 and CET1 adjusted to include certain components of AOCI (non-GAAP). CET1 is a capital adequacy measure established by federal banking regulators under the Basel III framework. Banking institutions that meet requirements under the regulations are required to maintain certain minimum capital requirements, including a minimum CET1 ratio. This measure is utilized by analysts and banking regulators to assess Regions' capital adequacy. Under the framework, Regions elected to remove certain of the effects of AOCI in the calculation of CET1. Adjustments to the calculation prescribed in federal banking regulations are considered to be non-GAAP financial measures. Adjustments to CET1 include certain portions of AOCI to arrive at CET1 inclusive of AOCI (non-GAAP), which is a potential impact under recent proposed rulemaking standards. Since analysts and banking regulators may assess Regions' capital adequacy using proposed rulemaking standards, management believes that it is useful to provide investors the ability to assess Regions' capital adequacy on this same basis.

(1) Excludes loans that are 100% guaranteed by FHA and guaranteed loans sold to Ginnie Mae where Regions has the right but not the obligation to repurchase; however, includes Ginnie Mae repurchased loans with partial guarantees. Total 30-89 days past due guaranteed loans excluded were \$66 million at 12/31/2025, \$62 million at 9/30/2025, \$57 million at 6/30/2025, \$52 million at 3/31/2025, and \$62 million at 12/31/2024.

(2) Excludes loans that are 100% guaranteed by FHA and all guaranteed loans sold to Ginnie Mae where Regions has the right but not the obligation to repurchase; however, includes Ginnie Mae repurchased loans with partial guarantees. Total 90 days or more past due guaranteed loans excluded were \$79 million at 12/31/2025, \$48 million at 9/30/2025, \$44 million at 6/30/2025, \$53 million at 3/31/2025, and \$55 million at 12/31/2024.

Forward-Looking Statements

This supplement, the related earnings release, and the accompanying earnings call may include forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. In addition, the company, through its senior management, may from time to time make forward-looking public statements concerning the matters described herein. The words "future," "anticipates," "assumes," "intends," "plans," "seeks," "believes," "predicts," "potential," "objectives," "estimates," "expects," "targets," "projects," "outlook," "forecast," "would," "will," "may," "might," "could," "should," "can," and similar terms, expressions, and graphics often signify forward-looking statements. Forward-looking statements are subject to the risk that the actual effects may differ, possibly materially, from what is reflected in those forward-looking statements due to factors and future developments that are uncertain, unpredictable and in many cases beyond our control. Forward-looking statements are not based on historical information, but rather are related to future operations, strategies, financial results or other developments. Forward-looking statements are based on management's current expectations as well as certain assumptions and estimates made by, and information available to, management at the time the statements are made. Those statements are based on general assumptions and are subject to various risks, and because they also relate to the future they are likewise subject to inherent uncertainties and other factors that may cause actual results to differ materially from the views, beliefs and projections expressed in such statements. Therefore, we caution you against relying on any of these forward-looking statements. These risks, uncertainties and other factors include, but are not limited to, those described below:

- Current and future economic and market conditions in the United States generally or in the communities we serve (in particular the Southeastern United States), including the effects of possible declines in property values, increases in interest rates and unemployment rates, inflation, financial market disruptions and potential reductions of economic growth, which may adversely affect our lending and other businesses and our financial results and conditions.
- Possible changes in trade, monetary and fiscal policies of, and other activities undertaken by, governments, agencies, central banks and similar organizations, including tariffs, which could have a material adverse effect on our businesses and our financial results and conditions.
- Changes in market interest rates or capital markets could adversely affect our revenue and expense, the value of assets (such as our portfolio of investment securities) and obligations, as well as the availability and cost of capital and liquidity.
- Volatility and uncertainty about the direction of interest rates and the timing of any changes, which may lead to increased costs for businesses and consumers and potentially contribute to poor business and economic conditions generally.
- Possible changes in the creditworthiness of customers and the possible impairment of the collectability of loans and leases.
- Changes in the speed of loan prepayments, loan origination and sale volumes, charge-offs, credit loss provisions or actual credit losses where our allowance for credit losses may not be adequate to cover our eventual losses.
- Possible acceleration of prepayments on mortgage-backed securities due to declining interest rates, and the related acceleration of premium amortization on those securities.
- Possible changes in consumer and business spending and saving habits and the related effect on our ability to increase assets and to attract deposits, which could adversely affect our net income.
- Loss of customer checking and savings account deposits as customers pursue other, higher-yield investments, or the need to price interest-bearing deposits higher due to competitive forces. Either of these activities could increase our funding costs.
- Possible downgrades in our credit ratings or outlook could, among other negative impacts, increase the costs of funding from capital markets.
- The loss of value of our investment portfolio could negatively impact market perceptions of us.
- Our ability to manage fluctuations in the value of assets and liabilities and off-balance sheet exposure so as to maintain sufficient capital and liquidity to support our businesses.
- The effects of social media on market perceptions of us and banks generally.
- The effects of problems encountered by other financial institutions that adversely affect us or the banking industry generally could require us to change certain business practices, reduce our revenue, impose additional costs on us, or otherwise negatively affect our businesses.
- Volatility in the financial services industry (including failures or rumors of failures of other depository institutions), along with actions taken by governmental agencies to address such turmoil, could affect the ability of depository institutions, including us, to attract and retain depositors and to borrow or raise capital.
- Our ability to effectively compete with other traditional and non-traditional financial services companies, including fintechs, digital wallet providers, and digital currency issuers, some of which possess greater financial resources than we do or are subject to different regulatory standards than we are.
- Our inability to develop and gain acceptance from current and prospective customers for new products and services and the enhancement of existing products and services to meet customers' needs and respond to emerging technological trends in a timely manner could have a negative impact on our revenue.
- Our inability to keep pace with technological changes, including those related to the offering of digital banking and financial services, could result in losing business to competitors.
- The development and use of AI presents risks and challenges that may adversely impact our business.
- Our ability to execute on our strategic and operational plans, including our ability to fully realize the financial and nonfinancial benefits relating to our strategic initiatives.
- The risks and uncertainties related to our acquisition or divestiture of businesses and risks related to such acquisitions, including that the expected synergies, cost savings and other financial or other benefits may not be realized within expected timeframes, or might be less than projected; and difficulties in integrating acquired businesses.
- The success of our marketing efforts in attracting and retaining customers.
- Our ability to achieve our expense management initiatives.
- Changes in commodity market prices and conditions could adversely affect the cash flows of our borrowers operating in industries that are impacted by changes in commodity prices (including businesses indirectly impacted by commodities prices such as businesses that transport commodities or manufacture equipment used in the production of commodities), which could impair the ability of those borrowers to service any loans outstanding to them and/or reduce demand for loans in those industries.
- The effects of geopolitical instability, including wars, conflicts, civil unrest, and terrorist attacks and the potential impact, directly or indirectly, on our businesses.
- Fraud, theft or other misconduct conducted by external parties, including our customers and business partners, or by our employees.
- Any inaccurate or incomplete information provided to us by our customers or counterparties.
- Inability of our framework to manage risks associated with our businesses, such as credit risk and operational risk, including third-party vendors and other service providers, which inability could, among other things, result in a breach of operating or security systems as a result of a cyber-attack or similar act or failure to deliver our services effectively.
- Our ability to identify and address operational risks associated with the introduction of or changes to products, services, or delivery platforms.
- Dependence on key suppliers or vendors to obtain equipment and other supplies for our businesses on acceptable terms.
- The inability of our internal controls and procedures to prevent, detect or mitigate any material errors or fraudulent acts.
- Our ability to identify and address cyber-security risks such as data security breaches, malware, ransomware, "denial of service" attacks, "hacking" and identity theft, including account take-overs, a failure of which could disrupt our businesses and result in the disclosure of and/or misuse or misappropriation of confidential or proprietary information, disruption or damage to our systems, increased costs, losses, or adverse effects to our reputation.

- The effects of the failure of any component of our business infrastructure provided by a third party could disrupt our businesses, result in the disclosure of and/or misuse of confidential information or proprietary information, increase our costs, negatively affect our reputation, and cause losses.
- The effects of any developments, changes or actions relating to any litigation or regulatory proceedings brought against us or any of our subsidiaries.
- The costs, including possibly incurring fines, penalties, or other negative effects (including reputational harm) of any adverse judicial, administrative, or arbitral rulings or proceedings, regulatory enforcement actions or other legal actions to which we or any of our subsidiaries are a party, and which may adversely affect our results.
- Changes in laws and regulations affecting our businesses, including legislation and regulations relating to bank products and services, such as changes to debit card interchange fees, special FDIC assessments, any new long-term debt requirements, as well as changes in the enforcement and interpretation of such laws and regulations by applicable governmental and self-regulatory agencies, including as a result of the changes in control of the U.S. Congress and changes in personnel at the bank regulatory agencies, which could require us to change certain business practices, increase compliance risk, reduce our revenue, impose additional costs on us, or otherwise negatively affect our businesses.
- Our capital actions, including dividend payments, common stock repurchases, or redemptions of preferred stock, must not cause us to fall below minimum capital ratio requirements, with applicable buffers taken into account, and must comply with other requirements and restrictions under law or imposed by our regulators, which may impact our ability to return capital to shareholders.
- Our ability to comply with stress testing and capital planning requirements (as part of the CCAR process or otherwise) may continue to require a significant investment of our managerial resources due to the importance of such tests and requirements.
- Our ability to comply with applicable capital and liquidity requirements (including, among other things, the Basel III Rules), including our ability to generate capital internally or raise capital on favorable terms, and if we fail to meet requirements, our financial condition and market perceptions of us could be negatively impacted.
- Our ability to recruit and retain talented and experienced personnel to assist in the development, management and operation of our products and services may be affected by changes in laws and regulations in effect from time to time.
- Our ability to receive dividends from our subsidiaries, in particular Regions Bank, could affect our liquidity and ability to pay dividends to shareholders.
- Fluctuations in the price of our common stock and inability to complete stock repurchases in the time frame and/or on the terms anticipated.
- The effects of anti-takeover laws and exclusive forum provision in our certificate of incorporation and bylaws.
- The effect of new tax legislation and/or interpretation of existing tax law, which may impact our earnings, capital ratios and our ability to return capital to shareholders.
- Changes in accounting policies or procedures as may be required by the FASB or other regulatory agencies could materially affect our financial statements and how we report those results, and expectations and preliminary analyses relating to how such changes will affect our financial results could prove incorrect.
- Any impairment of our goodwill or other intangibles, any repricing of assets or any adjustment of valuation allowances on our deferred tax assets due to changes in tax law, adverse changes in the economic environment declining operations of the reporting unit or other factors.
- The effects of man-made and natural disasters, including fires, floods, droughts, tornadoes, hurricanes and environmental damage (especially in the Southeastern United States), which may negatively affect our operations and/or our loan portfolios and increase our cost of conducting business. The severity and frequency of future earthquakes, fires, hurricanes, tornadoes, droughts, floods and other weather-related events are difficult to predict and may be exacerbated by global climate change.
- The impact of pandemics on our businesses, operations and financial results and conditions. The duration and severity of any pandemic as well as government actions or other restrictions in connection with such events could disrupt the global economy, adversely affect our capital and liquidity position, impair the ability of borrowers to repay outstanding loans and increase our allowance for credit losses, impair collateral values and result in lost revenue or additional expenses.
- The effects of any damage to our reputation resulting from developments related to any of the items identified above.
- Other risks identified from time to time in reports that we file with the SEC.

The foregoing list of factors is not exhaustive. For discussion of these and other factors that may cause actual results to differ from expectations, look under the captions "Forward-Looking Statements" and "Risk Factors" in Regions' Annual Report on Form 10-K for the year ended December 31, 2024 and in Regions' subsequent filings with the SEC.

You should not place undue reliance on any forward-looking statements, which speak only as of the date made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible to predict all of them. We assume no obligation and do not intend to update or revise any forward-looking statements that are made from time to time, either as a result of future developments, new information or otherwise, except as may be required by law.
