**\*Use of non-GAAP financial measures**

Regions believes that the presentation of non-GAAP financial measures provides a meaningful basis for period-to-period comparisons, which management believes will assist investors in assessing the performance of the Company on the same basis as that applied by management. Non-GAAP financial measures have inherent limitations, are not required to be uniformly applied and are not audited. Although non-GAAP financial measures are frequently used by stakeholders in the evaluation of a company, they have limitations as analytical tools, and should not be considered in isolation, or as a substitute for analyses of results as reported under GAAP. In particular, a measure of earnings that excludes certain adjustments does not represent the amount that effectively accrues directly to shareholders. Additionally, our non-GAAP financial measures may not be comparable to similar non-GAAP financial measures used by other companies and there is no certainty that we will not incur expenses in the future that are similar to those excluded in the calculations on non-GAAP financial measures presented herein.

(1) Amounts have been calculated using whole dollar values and the prevailing interest accrual methodology.

(2) Debt securities are included on an amortized cost basis with yield and net interest margin calculated accordingly.

(3) Interest income includes hedging income of \$1 million for the quarter ended March 31, 2026 and \$5 million for the quarter ended December 31, 2025.

(4) Interest income includes hedging expense of \$32 million for the quarter ended March 31, 2026 and \$44 million for the quarter ended December 31, 2025.

(5) Interest income includes hedging expense of \$4 million for the quarter ended March 31, 2026 and \$6 million for the quarter ended December 31, 2025.

(6) Total deposit costs may be calculated by dividing total interest expense on deposits by the sum of interest-bearing deposits and non-interest-bearing deposits. The rates for total deposit costs equal 1.20% for the quarter ended March 31, 2026 and 1.29% for the quarter ended December 31, 2025.

(1) Amounts have been calculated using whole dollar values and the prevailing interest accrual methodology.

(2) Debt securities are included on an amortized cost basis with yield and net interest margin calculated accordingly.

(3) Interest income includes hedge income of \$7 million for the quarter ended September 30, 2025, \$6 million for the quarter ended June 30, 2025, and \$2 million for the quarter ended March 31, 2025.

(4) Interest income includes hedging expense of \$58 million for the quarter ended September 30, 2025, \$53 million for the quarter ended June 30, 2025 and \$60 million for the quarter ended March 31, 2025.

(5) Interest income includes hedging expense of \$7 million for the quarter ended September 30, 2025, \$7 million for the quarter ended June 30, 2025 and \$7 million for the quarter ended March 31, 2025.

(6) Total deposit costs may be calculated by dividing total interest expense on deposits by the sum of interest-bearing deposits and non-interest-bearing deposits. The rates for total deposit costs equal 1.39% for the quarter ended September 30, 2025, 1.39% for the quarter ended June 30, 2025 and 1.40% for the quarter ended March 31, 2025.

**Pre-Tax Pre-Provision Income ("PPI") (non-GAAP) and Adjusted PPI (non-GAAP)**

The Pre-Tax Pre-Provision Income tables below present computations of pre-tax pre-provision income excluding certain adjustments (non-GAAP). Regions believes that the presentation of PPI and the exclusion of certain items from PPI provides a meaningful basis for period-to-period comparisons, which management believes will assist investors in analyzing the operating results of the Company and predicting future performance. These non-GAAP financial measures are also used by management to assess the performance of Regions' business. It is possible that the activities related to the adjustments may recur; however, management does not consider the activities related to the adjustments to be indications of ongoing operations.

- (1) Capital markets income primarily relates to capital raising activities that includes debt securities underwriting and placement, loan syndication and placement, as well as foreign exchange, derivative and merger and acquisition advisory services.
- (2) These market value adjustments relate to assets held for employee and director benefits that are offset within salaries and employee benefits expense and other non-interest expense.
- (3) Consumer overdraft fees represent approximately half of these amounts each quarter.
- (4) The majority of these amounts relate to Treasury Management (TM) activities and typically represent approximately two-thirds of total TM revenue each quarter.
- (5) Total wealth management income does not include certain smaller dollar amounts that are attributable to the wealth management segment.
- (6) For the purposes of determining the fair value of customer derivatives, the Company considers the risk of nonperformance by counterparties, as well as the Company's own risk of nonperformance. The valuation adjustments above are reflective of the values associated with these considerations.

**Adjusted Efficiency Ratios, Adjusted Fee Income Ratios, Adjusted Non-Interest Income/Expense, Adjusted Operating Leverage Ratios, and Adjusted Total Revenue**

The table below presents computations of the efficiency ratio, which is a measure of productivity, generally calculated as non-interest expense divided by total revenue; and the fee income ratio, generally calculated as non-interest income divided by total revenue. Management uses these ratios to monitor performance and believes these measures provide meaningful information to investors. Non-interest expense (GAAP) is presented excluding certain adjustments to arrive at adjusted non-interest expense (non-GAAP), which is the numerator for the adjusted efficiency ratio. Non-interest income (GAAP) is presented excluding certain adjustments to arrive at adjusted non-interest income (non-GAAP), which is the numerator for the adjusted fee income ratio. Net interest income and non-interest income are added together to arrive at total revenue. Adjustments are made to arrive at adjusted total revenue (non-GAAP). Net interest income on a taxable-equivalent basis and non-interest income are added together to arrive at total revenue on a taxable-equivalent basis (GAAP). Adjustments are made to arrive at adjusted total revenue on a taxable-equivalent basis (non-GAAP), which is the denominator for the adjusted fee income and adjusted efficiency ratios. Also presented is a computation of the adjusted operating leverage ratio (non-GAAP), which is the period-to-period percentage change in adjusted total revenue on a taxable-equivalent basis (non-GAAP) less the percentage change in adjusted non-interest expense (non-GAAP).

**Adjusted Net Income Available to Common Shareholders, Adjusted Diluted EPS, and Return Ratios**

The table below provides a reconciliation of net income available to common shareholders (GAAP) to adjusted net income available to common shareholders (non-GAAP), a computation of adjusted diluted EPS (non-GAAP), and calculations of “average tangible common shareholders’ equity” (non-GAAP) and related ratios. Net income available to common shareholders (GAAP) is presented excluding certain adjustments, net of tax, to arrive at adjusted net income available to common shareholders (non-GAAP), which is the numerator for adjusted diluted EPS (non-GAAP). Management uses these ratios to monitor performance and believes these measures provide meaningful information to investors. Average tangible common shareholders’ equity ratios have become a focus of some investors and management believes they may assist investors in analyzing the capital position of the Company absent the effects of intangible assets and preferred stock. Analysts and banking regulators have assessed Regions’ capital adequacy using the average tangible common shareholders’ equity measure. Because average tangible common shareholders’ equity is not formally defined by GAAP or prescribed in any amount by federal banking regulations it is currently considered to be a non-GAAP financial measure and other entities may calculate it differently than Regions’ disclosed calculations. In calculating return on average tangible common shareholders’ equity ratios, Regions makes adjustments to shareholders’ equity including average intangible assets and related deferred taxes, and average preferred stock. Regions also presents an adjusted tangible common shareholder ratio using adjusted net income (non-GAAP) as the numerator. Management uses these metrics to monitor performance and believes these measures provide meaningful information to investors.

NM - Not Meaningful

(1) In the second quarter of 2025, the Company redeemed its Series D preferred stock. The initial issuance costs reduced net income to common shareholders when the shares were redeemed. This is a non-taxable expense.

(2) Unless separately noted, the tax impact for adjustments has been calculated using a nominal tax rate of 25 percent.

(3) Amounts calculated based upon whole dollar values.

**Tangible Common Ratios**

The following table provides a reconciliation of shareholders' equity (GAAP) to tangible common shareholders' equity (non-GAAP) and the calculations of the end of period "tangible common shareholders' equity to tangible assets" and "tangible common book value per share" ratios (non-GAAP). Since analysts and banking regulators may assess Regions' capital adequacy using tangible common shareholders' equity, management believes that it is useful to provide investors the ability to assess Regions' capital adequacy on this same basis.

**Common equity Tier 1 (CET1) Ratios**

The following table presents CET1 and CET1 adjusted to include certain components of AOCI (non-GAAP). CET1 is a capital adequacy measure established by federal banking regulators under the Basel III framework. Banking institutions that meet requirements under the regulations are required to maintain certain minimum capital requirements, including a minimum CET1 ratio. This measure is utilized by analysts and banking regulators to assess Regions' capital adequacy. Under the framework, Regions elected to remove certain of the effects of AOCI in the calculation of CET1. Adjustments to the calculation prescribed in federal banking regulations are considered to be non-GAAP financial measures. Adjustments to CET1 include certain portions of AOCI to arrive at CET1 inclusive of AOCI (non-GAAP), which is a potential impact under recent proposed rulemaking standards. Since analysts and banking regulators may assess Regions' capital adequacy using proposed rulemaking standards, management believes that it is useful to provide investors the ability to assess Regions' capital adequacy on this same basis.

This supplement, the related earnings release, and the accompanying earnings call may include forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. In addition, the company, through its senior management, may from time to time make forward-looking public statements concerning the matters described herein. The words “future,” “anticipates,” “assumes,” “intends,” “plans,” “seeks,” “believes,” “predicts,” “potential,” “objectives,” “estimates,” “expects,” “targets,” “projects,” “outlook,” “forecast,” “would,” “will,” “may,” “might,” “could,” “should,” “can,” and similar terms, expressions, and graphics often signify forward-looking statements. Forward-looking statements are subject to the risk that the actual effects may differ, possibly materially, from what is reflected in those forward-looking statements due to factors and future developments that are uncertain, unpredictable and in many cases beyond our control. Forward-looking statements are not based on historical information, but rather are related to future operations, strategies, financial results or other developments. Forward-looking statements are based on management’s current expectations as well as certain assumptions and estimates made by, and information available to, management at the time the statements are made. Those statements are based on general assumptions and are subject to various risks, and because they also relate to the future, they are likewise subject to inherent uncertainties and other factors that may cause actual results to differ materially from the views, beliefs and projections expressed in such statements. Therefore, we caution you against relying on any of these forward-looking statements. These risks, uncertainties and other factors include, but are not limited to, those described below:

- Our businesses have been, and may continue to be, adversely affected by conditions in the financial markets and economic conditions generally.
- Fluctuations in market interest rates, including the level and shape of the yield curve, may adversely affect our performance.
- If we experience greater credit losses in our loan portfolios than anticipated, our earnings may be materially adversely affected.
- Any future reductions in our credit ratings may increase our funding costs and place limitations on business activities.
- Changes in the soundness of other financial institutions could adversely affect us.
- We may suffer losses if the value of collateral declines in stressed market conditions.
- Ineffective liquidity management could adversely affect our financial results and condition.
- Loss of deposits or a change in deposit mix could increase our funding costs.
- We rely on the mortgage secondary market to manage various risks.
- We are at risk of a variety of systems failures or errors and cyber-attacks or other similar incidents that could adversely affect customer experience and our business and financial performance.
- We are subject to complex and evolving laws, regulations, rules, standards and contractual obligations regarding privacy and cybersecurity, which could increase the cost of doing business, compliance risks and potential liability.
- We will continually encounter technological change and must effectively anticipate, develop and implement new technology.
- The development and use of AI presents risks and challenges that may adversely impact our business.
- Industry competition, including competition from decentralized finance platforms, cryptocurrencies and blockchain technologies could disrupt our business model and adversely affect our revenues, market share or liquidity.
- Our operations are concentrated primarily in the South, Midwest and Texas, and adverse changes in the economic conditions in this region can adversely affect our financial results and condition.
- Weakness in the residential real estate markets could adversely affect our performance.
- Weakness in the commercial real estate markets could adversely affect our performance.
- Risks associated with home equity products where we are in a second lien position could adversely affect our performance.
- Weakness in commodity businesses could adversely affect our performance.
- An outbreak or escalation of hostilities between countries or within a country or region could have a material adverse effect on the U.S. economy and on our businesses.
- We are subject to a variety of operational risks, including the risk of fraud or theft by internal or external parties, which may adversely affect our business and results of operations.
- We rely on other companies to provide key components of our business infrastructure.
- We depend on the accuracy and completeness of information about clients and counterparties.
- We are exposed to risk of environmental liability when we take title to property.
- We can be negatively affected if we fail to identify and address operational risks associated with the introduction of or changes to products, services and delivery platforms.
- Enhanced regulatory and other standards for the oversight of vendors and other service providers can result in higher costs and other potential exposures.
- We are, and may in the future be, subject to claims and litigation calling into question our right to use the intellectual property underlying certain technology in our business.
- Weather-related events, pandemics and other natural or man-made disasters could cause a disruption in our operations or lead to other consequences that could adversely impact our financial results and condition. These impacts could be intensified by climate change. Heightening focus on climate change may also carry transition risks that could negatively impact our results of operations and financial condition.
- We are subject to sociopolitical risks that could adversely affect our business, reputation and the trading price of our common stock.
- Damage to our reputation could significantly harm our businesses.
- We are, and may in the future be, subject to litigation, investigations and governmental proceedings that may result in liabilities adversely affecting our financial condition, business or results of operations or in reputational harm.
- We are subject to extensive governmental regulation, which could have an adverse impact on our operations and our business model.
- We are subject to a variety of risks in connection with any sale of loans we may conduct.
- We may be subject to more stringent capital and liquidity requirements.
- Rulemaking changes and regulatory initiatives implemented by the CFPB may result in higher regulatory and compliance costs that may adversely affect our results of operations.
- We are subject to numerous laws designed to protect consumers, including the CRA and fair lending laws, and a failure to comply with these laws could lead to a wide variety of penalties and other sanctions.
- We may not be able to complete future acquisitions, may not be successful in realizing the benefits of any future acquisitions that are completed or may choose not to pursue acquisition opportunities we might find beneficial.
- Increases in FDIC insurance assessments may adversely affect our earnings.
- Unfavorable results from ongoing stress analyses may adversely affect our ability to retain customers or compete for new business opportunities.
- We are a holding company and depend on our subsidiaries for dividends, distributions and other payments.
- We may not pay dividends on shares of our capital stock.
- Anti-takeover and banking laws and certain agreements and charter provisions may adversely affect share value.
- Our amended and restated by-laws designate (i) the Court of Chancery of the State of Delaware as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by our shareholders and (ii) the federal district courts of the United States as the sole and exclusive forum for any action asserting a cause of action arising under the Securities Act, which could limit our shareholders’ ability to obtain a favorable judicial forum for disputes with our company or our company’s directors, officers or other employees.
- We face substantial legal and operational risks in our safeguarding and other processing of personal information.
- Differences in regulation can affect our ability to compete effectively.
- Our businesses may be adversely affected if we are unable to hire and retain qualified employees.

**Regions Financial Corporation and Subsidiaries**  
**Financial Supplement (unaudited) to First Quarter 2026 Earnings Release**

- Our operations rely on our ability, and the ability of key external parties, to maintain appropriately staffed workforces, and on the competence, trustworthiness, health and safety of employees.
- Our reported financial results depend on management’s selection of accounting methods and certain assumptions and estimates.
- If the models that we use in our business perform poorly or provide inadequate information, our business or results of operations may be adversely affected.
- Changes in our accounting policies or in accounting standards could materially affect how we report our financial results and condition.

The foregoing list of factors is not exhaustive. For discussion of these and other factors that may cause actual results to differ from expectations, look under the captions “Forward-Looking Statements” and “Risk Factors” in Regions’ Annual Report on Form 10-K for the year ended December 31, 2025 and in Regions’ subsequent filings with the SEC.

You should not place undue reliance on any forward-looking statements, which speak only as of the date made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible to predict all of them. We assume no obligation and do not intend to update or revise any forward-looking statements that are made from time to time, either as a result of future developments, new information or otherwise, except as may be required by law.
